Golden Cycle Preparing to Resume and Other Properties Will Begin Operations as Soon as Men Can Be Secured—Strong Undercurrent of Feeling Around District.

Special to the Gazette

Cripple Creek, Aug 19—It is evident that the mine owners are determined upon aggressive action and the successful opening of the El Paso mine and drainage tunnel has fortified them in their decision to open the big properties one after another as fast as men can be secured.

All applying will be protected to the fullest extent. While everything is placid on the surface there is a strong undercurrent of feeling that a clash may come at any moment between the contending forces

The El Paso mine is running full force and has been hoisting ore regularly throughout the day Three shifts of miners are being worked in the lateral of the drainage tunnel south of the El Paso shaft, although no one has been sent in at the exposed portal lateral of the tunnel

Golden Cycle Next to Resume

The Golden Cycle mine is the next expected to resume and the management is constructing a high board fence around the surface buildings

The Modoc mine resumed operations in full by permission of the Miners union and will ship all ore to the Dorcas mill at Florence

Representatives of the Western Federation of Miners have waited upon the management of the Telluride mill at Colorado City four times in the past 10 days but hesitate to declare a strike against this plant The mill is consequently running as usual

The ore supply on hand at the Standard and Portland mills at the commencement of the strike is running low and these plants will not be able to continue operations longer than a week or 10 days The Economic mill at Cripple Creek is running but is making the last clean-up of ore It will be forced to shut down in the near future

As to the Portland.

President James F Burns of the Portland company emphatically denied the published report that he had been in conference with the strikers yesterday upon any proposition to reopen the mine on terms dictated by the Cripple Creek union He said last night 'I am going to camp Thursday but not on any such errand as that When I get ready to open the Portland and get the men to do it with I will go ahead and do so and will not wait on the mine owners union or anyone else

Late last night fears were expressed that an attempt might be made to blow up the water main from Altman which supplies the El Paso mine but no disorder was reported

Work on the Tunnel.

The action of the managers of the great drainage tunnel in resuming operations this morning in the face of the ultimatum of the unions has been the one topic of discussion throughout the district today.

Before daylight this morning men could be seen leaving the different towns of the district generally in twos, and wending their way toward Beacon hill Nothing was thought of this, as they did not carry the usual dinner pail, but by daylight a large force of men had gathered at the El Paso property ready for work

Shortly before daylight men were sent out in all directions from the Beacon hill bonanza all carrying rifles and it was but a short time before a complete system had been established and the men began their lonely watch At the same time another gang of men stretched an inch rope completely around the El Paso mine building a few feet from the ground and men were stationed at distances of 100 feet apart entirely encircling the Beacon hill property and all armed with the latest pattern of rifles Protected by these two lines men began work on the drainage tunnel and around the El Paso property

A visit to the mine revealed the fact that work was progressing but everything was as quiet as if nothing out of the ordinary was transpiring

AD STRIKE

Ready for Seige

It was stated that enough provisions have been hauled in during the night and the early morning to supply the men 90 days The carpenter shop adjoining the shaft house will be used for a bunk house while meals will be served in the interior of the large shaft house Nearly all the men working on the property expect to remain there until the present trouble is settled, but they have the privilege of going home at nights if they care to During the time the men are kept there not a drop of liquor will be allowed on the ground

Carpenters were at work this afternoon building a close high board fence around the mine so that within a day or two it will be impossible to witness what is taking place within the inclosure The men watching the property are miners who have been employed in the district and not as has been reported men shipped in from Denver

The Sheriff's Statement

Sheriff Robertson tonight made the following statement

'The men acting as guards around the El Paso today are not deputy sheriffs There are only three men at the mine who have been given commissions and they are the three watchmen whose commissions were asked for by the company

In regard to the statement that Sheriff Robertson had promised the mine owners to deputize all the men they asked for he said that he had promised the mine owners that he would do everything in his power to protect property if he had to swear in every man in the county to do so that his position as an officer was for the purpose of defending property and lives from any and all kinds of danger and that he proposed to perform his duty but that he and not the mine owners would have charge of the deputies should it become necessary to swear them in

Erection of High Fences

Much comment was occasioned by the order of the Golden Cycle and El Paso companies for the erection of 12-foot fences to inclose their properties This work was commenced today at both mines and will be completed as rapidly as possible The Golden Cycle management states that the fences are being put up for the purpose of protecting the company's property from thieves who have at various times stolen timber and tools from the grounds and that the fence was decided upon long before the strike

It is reported tonight that other large mines will also inclose their shaft houses with similar fences The mines that had their property inclosed prior to the strike are the Portland Last Dollar, Wild Horse and the Economic mill in Eclipse gulch.

President Kennison of District union No 1, when seen this morning and asked what action would be taken by the strike committee said "We have not yet decided A meeting of the executive board will occur this afternoon and what will be done I have not the slightest idea at this time

Later in the day he was again asked what had transpired at the meeting and replied Nothing for publication

While probably no violence will be attempted at this time the miners are prepared for anything that may come The only thing that prevails through out the district astonishes outsiders who are making daily visits to the camp but these people do not take into consideration the fact that the miners of Cripple Creek are all Americans and not ignorant foreigners No kind of disorder has occurred and it is claimed by many of the miners that they will resort all means they expect to win the strike

GUARDING WATER MAIN FROM ALTMAN TO EL PASO

Special to the Gazette

Cripple Creek Aug 20—At 2 o clock this morning a representative of the El Paso mine gave out the following

'Every precaution is being taken to night to guard the water main from Altman to the mine but we do not expect much will be done tonight.

This statement was made in reply to a query emanating from Colorado Springs that it was feared that some sort of an attempt would be made during the night to interfere with the water supply of the El Paso mine

The El Paso has two great storage tanks with a capacity of 60 000 gallons full to the brim These can be used in case of any interruption with the Altman water service and would supply the mine two weeks without replenishing After that water would have to be hauled which was the practice before connections were made with the Altman system

[illegible] CONSPIRACY [illegible]

Idaho Springs Colo Aug 19—At the hearing this afternoon of Napoli and Carbonetti Italian members of the Miners union who are charged with complicity in the blowing up of one of the buildings of the Sun and Moon mine last month a sensation was caused by the evidence given by William Bate ex-president of the Miners union

He said that about the middle of June he met Carbonetti and Napoli in a saloon in Idaho Springs J C Chandler financial secretary of the union was present

On [illegible] day he met Chandler just before he departed for Kansas [illegible] Chandler told him that a committee had been appointed to blow up the Sun and Moon on August 4 This committee consisted of [illegible] the man killed at the explosion and Carbonetti and Napoli

Chandler stated during the conversation that they (meaning the committee) would not blow up the Sun and Moon on August 4 but a week later which would correspond with the date on which the crime was committed

Carbonetti and Napoli were bound over to the district court

A I Beun Levi T Bender, Edward Carter Joseph Roehrl, L C Compton and Michael Reilly were also bound over on a charge of conspiracy to blow up the mine

The hearing took place before Justice of the Peace Morris and was conducted by District Attorney Thurman H stated that he was working in entire harmony with Messrs Elliott and Talbot the special prosecutors appointed by Judge Owers and that Mr Elliott would have full charge of this case in the district court

RALPH TALBOT

Appointed by Judge Owers as Special Prosecutor in Idaho Springs Cases

[illegible] LANDS OF FOUNTAIN VALLEY

Work Begins on Big Ditch and First Reservoir to Be Completed by December—Organization of Company Under Way.

Work on the big ditch which is to carry the sewage from this city to irrigate the Fountain valley will be begun this morning when a party of surveyors will go out under the direction of the Fountain Valley Land and Irrigation company

The organization of the company was decided upon at a meeting in this city yesterday evening The capitalization will be $[illegible] full paid

Conference Yesterday

W C Johnston promoter of the new company arrived at the Antlers yesterday morning and was met by Attorney C W Haines The two conferred during the morning and afternoon with the local capitalists interested in the project chief of whom is I K Stark The names of all the men who will be the business associates of Mr Johnston in the deal have not yet been made public and Mr Johnston refused yesterday to divulge them He asserted however that all was in readiness for the signing and filing of the papers and that the work of constructing the ditch which will convey the city water from Colorado Springs to Fountain will be started at once

The plans of the new company call for the completion of the ditch from Colorado Springs to a point five and one-half miles south of here to the first reservoir, and also the completion of the reservoirs between now and December 1 The five or six miles of ditch will water more than 4 000 acres of land and with the flood waters of Fountain creek 15 000 acres of soil will be put into shape for the cultivation of sugar beets

Work Will Be Rushed

You can say for me stated Mr Johnston yesterday that everything is now finally arranged and that the work will go on without a hitch H I Reid the engineer of this city will have [illegible] work early tomorrow morning and we will at once let contracts for the digging of the ditch We [illegible] advertising for bids as I am already in communication with a number of contractors who will be ready [illegible] the work and I think it is safe to say that more than five miles of ditch will be finished before December and that the first reservoir will be in shape to receive the water by that time

Mr Haines is now at work on the incorporation papers and the company may perhaps be incorporated today perhaps not until tomorrow but at any rate the matter is practically finished and the organization of the company is an assured fact

TRANS-MISSISSIPPI CONGRESS WAS INTERRUPTED BY STRIKE

Seattle Wash Aug 19—Arthur F Francis of Cripple Creek was re-elected secretary of the Transmississippi congress today

The proceedings of the second day's session of the congress were broken off with a jar this afternoon when John Henry Smith of Utah who was presiding temporarily raised his hand for order and announced that the women in the hall had better hurry to the city for there was a rumor that the street car men were going out on a strike at 4 o clock in the afternoon

Five minutes later the hall was cleared not only of women but of men as well Truman C Palmer was in the middle of an able paper telling about the Philippines when the announcement of the possible strike was made

Before the hall was entirely deserted one man had the presence of mind left to make a motion to adjourn but no one stayed long enough to vote on the question Mr Smith declared the motion carried anyway

Though official action has not yet been taken it is generally understood that the next session of the congress will be held in St Louis during the world's fair Richard C Kerens the Republican leader of Missouri, was unanimously elected president for the next year

A L Black of Whatcom Wash was named as first vice president Walter Gresham of Galveston who is presiding over the present congress was elected as second vice president Hon. John Cauffi [illegible] of St Paul third vice president [illegible] H Booth of Los Angeles, fourth vice president George B Harrison of Kansas City was re-elected as treasurer

PRETTY FOOTPRINTS GIVE POLICE CLEW

High Heeled Shoes Direct Suspicion to a Woman With Penchant for Beautiful Roses.

A fragrant rose is always tempting to a woman especially if she be the dainty sort of creature that wears French heel shoes and that is why taken in connection with a discovery that has been made that the police suspect a woman is the thief who has been stealing roses from the beautiful garden of Mrs W K Jewett 1[illegible] North Cascade avenue

From the footprints that have been left in the soft earth around the rose bushes the officers believe there is a woman in the case The footprints are of a small high heeled shoe The heel print is very close to the toe showing that the shoe worn by the thief is of a decidedly French pattern This is the only [illegible] in the possession of the officers and they are using it for the purpose of making further investigations

Several [illegible] have been made [illegible] the last raid the thief [illegible] of the finest roses [illegible] number of the plants [illegible] offered a reward of $[illegible] of the thief and a [illegible] been working [illegible] the hope of securing [illegible] bringing the culprit to justice Mr Jewett is now considering the advisability of engaging a watchman and stationing him in the garden for an all night vigil

The garden is the finest in the city there being over four thousand roses in bloom

DATE OF REPUBLICAN STATE CONVENTION

DAN PATCH BROKE THE WORLD'S RECORD

Paced a Mile Against Adverse Conditions of Wind and Track in 1:59.

New York Aug 19—Dan Patch broke the world's record today for pacers by pacing a mile in 1 59 at Brighton Beach It was a most magnificent performance considering the impossibility of wind and track considered

There was a stiff breeze blowing which struck the horses fairly in the face The track was a little slow but the effect of the wind was counteracted by sending a runner in front while the second runner [illegible] alongside

When Dan Patch appeared on the track he was loudly cheered With a swift stride he shot from the wire and seemed determined to push his nose into the flying sulky in front of him which the thoroughbred in the shafts was steadily pulling ahead On swept the famous pacer to the quarter in 29¾ and when the half mile was reached in 59 a great volume of cheers went up from the vast crowd Then came the difficult turn and the slowest quarter of the mile ensued the three-quarters being done in 1 29 But down the stretch as swift and steady as a locomotive he came and as he shot under the wire the watches stopped at 1 59

The new champion was not at all distressed and looked as if he will be able before the season is over to beat his own record. The betting was even money either for or against his beating the record

The race was for $2 [illegible] to beat the world's record of 1 59¼ Dan Patch was driven by McHenry

BANK AT BEAUMONT CLOSED BY EXAMINER

Beaumont Tex Aug 19 The Citizens National and Savings bank was closed this afternoon by Bank Examiner Logan who has been here for several days looking over the affairs of the institution

Examiner Logan positively refused to say anything concerning the status of the bank's except that he had prepared a statement for the comptroller of the currency It is rumored on the street that the bank has a large sum of [illegible] which is alleged to be practically worthless It is also stated that there [illegible] overdrafts

The bank was opened for business [illegible] The capital stock was $[illegible] and the deposits have ranged in the neighborhood of $[illegible] [illegible] the other banks in the city were prepared for the crash Their officers state that they have provided for [illegible] They say no other bank will be affected by the failure The failed bank is officered by well-known men

Seattle Wash Aug 19—James Willis Sayre the fliers globe trotter reached Seattle at 4 15 this afternoon over the Northern Pacific railroad Immediately upon his arrival here he went aboard the tug Magic of the Puget Sound Tugboat company and was taken out in the bay, crossing the line where the steamship Hyades passed out opposite Seattle at 8 05 on the morning of Friday, June 25 This completed the entire journey around the world At 5 o clock this morning Mr Sayre had been gone from Seattle exactly 54 days eight hours and 55 minutes thus breaking the record more than six days.

[illegible] FOR RELIANCE

New York Aug 19—A son was born today to Mrs C Oliver Iselin wife of the managing owner of the Reliance, defender of the America's cup.

HAUL MADE BY BURGLAR

Thief Gets Away With Valuables From Walling House.

Since Tuesday night the police have been looking for a burglar who entered the residence of Albert Walling 1022 North Weber street and made away with property to the value of over $100

The man left absolutely no clew behind him. No one was at home at the time of the burglary the family being down town The family returned home about 10 o clock and found the drawers of the dresser and sideboard piled up in the middle of the dining room and bedroom floors and wearing apparel strewn all about

Left Valuables Behind.

Mr Walling took in the situation at a glance He remembered that the family jewelry valued at several hundred dollars had been left in a small drawer in one of the dressers and he made an immediate investigation for the purpose of determining whether it had been taken An examination found the jewelry intact, and the attention of the family was then turned to the drawers in the center of the room It was found that a great deal of valuable wearing apparel, valued at over $100 had been taken although much more had been left behind

As soon as Mr Walling had satisfied himself of the extent of the theft he reported the matter to the police They responded within a short time Chief of Police Reynolds and Detectives Shults and Burno driving to the house in the patrol wagon where they made a thorough search of the premises

It was found that the burglar had entered by the rear door cutting the screen for the purpose of getting to the inside door which was unlocked The window of the bath room was also open showing he had gone out that way From the appearance of the room it was evident to the police that the burglar had become frightened while in the midst of his work and left without taking the real valuables that were in the dresser drawer A quantity of silverware was also left behind

Reported Hold-Up.

It was reported that the same man made an attempt to hold up a pedestrian who was passing the house shortly before 10 o clock, but this could not be verified and the police have no information concerning it It is said that a number of north end residents heard the stealthy approach of a man on the premises that night and he appeared to be looking for an opportunity to force an entrance to the houses A scurry of footsteps followed an investigation in every instance, however

ALLEGATIONS OF FRAUD IN EL PASO COUNTY LAND

Special to the Gazette

Denver Aug 19—Register Woodruff of the state land board today notified the firm of Skinner and Cable that rentals on state lands to the amount of $5 000 must be paid at once or action would be brought against them This firm took up 22,000 acres of grazing land the greater portion of which lies in El Paso county and the remainder in Pueblo An investigation of the cases discloses the fact that the land had been taken up by a number of employes controlled by Cable of the firm of Skinner & Cable Allegations of fraud have been made and Appraiser Swan is investigating

DR. CRANE HERE [illegible] FOR BREVITY

Well-Known Clergyman Denies He Is a Socialist.

After six years of preaching in eastern pulpits Rev Charles A Crane D D, whose pastorate of the Methodist church was notable for the interest which the clergyman took in municipal affairs in Colorado Springs for a brief visit

He arrived at the Antlers yesterday in company with W C Johnston of Denver also a former resident of Colorado Springs whose guest he is Dr Crane's utterances from his Boston pulpit have been the cause of much comment He has given expression to Socialistic ideas that has directed much attention to him and won him considerable fame as a pulpit orator

I am not a Socialist said Dr Crane at the Antlers last night It has been said by many that I have embraced the doctrine but this is not true I suppose the reason this report has gained currency is because of a number of my utterances in the pulpit I have always contended that the system employed by a great many concerns is a mild form of Socialism and if this system were not good I do not think it would be continued Take the postoffice department, for instance, it is conducted along lines advocated by the Socialists There are many other instances I could cite to support this assertion

The attitude of the coal barons in the recent strikes in the east has done more to promote the cause of Socialism than could have been accomplished by years of preaching the doctrine by paid political speakers

Socialism is growing There is absolutely no doubt of it The party has already elected a mayor in a number of eastern cities and I think the Socialist party not only will become a power which must be reckoned with but that its influence is already being felt all over the United States The cause for its marvelous growth is simple People become tired of being oppressed and the doctrine of Socialism holds forth alluring charms to them The natural consequence is that Socialists are made every day

Dr. Crane was pastor of the First Methodist church in this city for several years He left here in May of 1897 to accept a call to the People's temple of Boston the largest Methodist church in the United States This is his first visit to Colorado Springs since he resigned as pastor here He spent yesterday in visiting a number of familiar spots in the city He was accompanied by his two children While he finds many changes have taken place he asserted last night that Colorado Springs was the same beautiful spot as of old. He will remain at the Antlers several days the guest of Mr Johnston who is interested in the new beet sugar factory which is to be established in the Fountain valley

The Boston minister had a narrow escape from burning Tuesday night He was at the Denver home of Mr Johnston and while asleep an electric wire with an imperfect insulation ignited the canopy of his bed The alarm was quickly given and the flames were extinguished without the need of the fire department

WHITE-WINGED COURSERS [illegible] RACE FOR BLUE RIBBON OF THE SEA

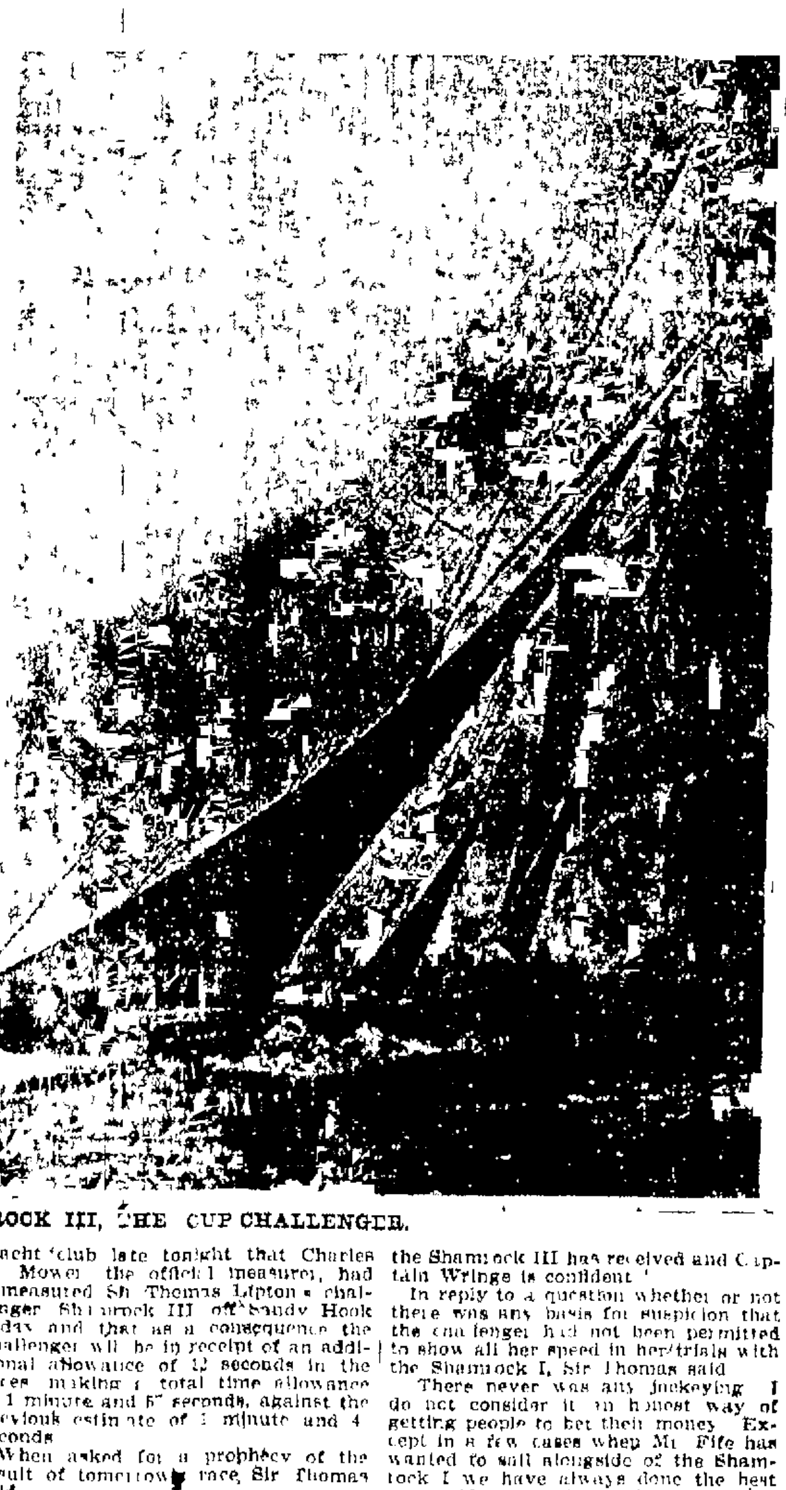

New York Aug 19—Over the ocean race course outside of Sandy Hook Sir Thomas Lipton third challenger the Shamrock III will tomorrow try conclusions with the new defender of the America's cup the Reliance

It is expected that the largest crowds which ever witnessed an international cup race will go out to see the initial contest for the blue ribbon of the sea Again this year as in the two preceding cries the government will police the course with revenue cutters and the most stringent rules have been laid down to prevent interference by the excursion fleet with the big single stickers

Like greyhounds in leash the big racers are moored tonight inside Sandy Hook ready for the fray tomorrow Both were given their final trial spins today Despite the big time allowance which the defender must concede to the challenger the friends of the Reliance are extremely confident that Sir Thomas is again doomed to defeat and the confidence in the American boat is reflected in the betting where the odds are 2 to 1 on the Reliance The friends of the British boat on the other hand profess great faith in the ability of Fife's latest creation to lift the cup

In neither of his previous attempts to carry off the precious mug did Sir Thomas sail on a challenger Tonight he was in doubt whether to sail on the challenger tomorrow His friends on the Erin urged him not to do so for fear of an accident

According to the rules the first race will be 15 nautical miles to windward or

SHAMROCK III, THE CUP CHALLENGER.

leeward and return, depending upon the direction of the wind After that each alternate race will be over a triangular course, ten miles to the leg. The next race will be sailed on Saturday and the third next Tuesday and thereafter every other day until the series is completed The winner of three out of five will get the cup According to the rules if the course is not covered within the time allowance five and one-half hours it is no race

The weather predictions for tomorrow are not alluring the forecaster promising a breeze from three to nine knots A seven-knot breeze will be necessary to carry the boats over the course in the allotted time

It was announced at the New York Yacht club late tonight that Charles D Mower the official measurer, had remeasured Sir Thomas Lipton's challenger Shamrock III off Sandy Hook today and that as a consequence the challenger will be in receipt of an additional allowance of 12 seconds in the races making a total time allowance of 1 minute and 57 seconds, against the previous estimate of 1 minute and 4[illegible] seconds

When asked for a prophecy of the result of tomorrow's race, Sir Thomas said

I am more confident of winning than ever and my confidence is shared by every man on the fleet and other admirers of the Shamrock III Designer Fife is satisfied with the tuning up that the Shamrock III has received and Captain Wringe is confident '

In reply to a question whether or not there was any basis for suspicion that the challenger had not been permitted to show all her speed in her trials with the Shamrock I, Sir Thomas said

There never was any jockeying I do not consider it an honest way of getting people to bet their money Except in a few cases when Mr Fife has wanted to sail alongside of the Shamrock I we have always done the best we could, and I have always wanted to see her do her best

Midnight—The wind at Sandy Hook was southeast eight miles an hour weather cloudy A moderate sea was running.

A Good 75c View Book for 35c

Do you know that we are selling this week a good view book of Colorado Springs and the surrounding points of interest containing one hundred and thirteen views for 35c?" It is for sale exclusively at our store and we have only about 200 copies left. At the rate they are selling, they won't last all week. Yesterday some parties bought two, three and even a half dozen at a time. Most of the views are the famous Stevens views. The book contains a nice little miniature in black and white of his celebrated Sun Rise picture from Pike's Peak, well worth the price alone. Remember, only 35c, this week at

[illegible] AND [illegible] WILL SETTLE HERE

During an informal afternoon at home Miss Bertha Allen and Miss Ada Harrington gave their friends a great surprise on Tuesday afternoon. Miss Allen, who is a daughter of Dr. and Mrs W. C. Allen, 715 North Weber street, announced her engagement to Philip Gillette formerly of Colorado Springs, and Miss Harrington announced her engagement to Frank Allen, son of Dr and Mrs Allen.

Early in October Miss Allen will leave for San Francisco, where friends will see her set sail on October 15 for Shanghai China, where she will be met by her fiance. Directly after their marriage they will go to Soule, Korea, where Mr Gillette is located as an international secretary of the Young Men's Christian association.

Miss Allen is one of the popular young women of the city and will be greatly missed. Miss Harrington counts this city her home, although each summer she accompanies her mother to their ranch in South park.

Mr Allen is assistant agent in the local Santa Fe railroad offices and he and his prospective bride graduated with the same class in the High school. The date of their marriage has not yet been set, but late fall or early winter will in all probability be selected.

Clara Morris Draws the Line at What She Calls Stage-Struck Girls

In her lecture at the Opera house last night Miss Clara Morris told of two different classes of young actresses. One of them she designated as the "stage-struck young girls and the other as young persons possessed of genius which will not down." Incidentally Miss Morris asserted that the stage does not hold any greater temptations than do many other walks of life.

A fair-sized audience greeted the distinguished woman, the fact that the occasion was to be a very rare treat, a privilege which is seldom allowed the average person in a western city, and those who did not attend missed one of the best entertainments of the Chautauqua offerings.

A feature of last night's entertainment was the singing of Miss Martha Tyler, the contralto artist who is at present visiting in this city and appearing in the Chautauqua course. Miss Tyler was given several encores, appearing in four numbers.

PROF. LANGLEY SAYS THAT HE IS NOT YET READY TO FLY

Washington, Aug 19—Prof. Langley, secretary of the Smithsonian Institution, whose experiments down the Potomac river with the aerodrome or flying machine devised by him have attracted wide public interest, in order to correct certain public misapprehensions today issued the following statement:

Smithsonian Institution Aug 19—To the press—The present experiments being made in mechanical flight have been carried on partly with funds provided from private sources and from an endowment of the Smithsonian Institution. The experiments are carried on with the approval of the board of regents of the Smithsonian Institution.

The public's interest in them may lead to an unfounded expectation as to their immediate results without an explanation which is hereby briefly given. These trials with some [illegible] with steam driven flying machines are believed to be the first in the history of invention where bodies far heavier than air itself have been sustained in the air for more than a few seconds by purely mechanical means.

In my previous trials success has only been reached after initial failures which alone have taught the way to it, and I know no reason why prospective trials should be an exception.

It is possible rather than probable that it may be otherwise now, but judging from the light of past experience it is to be regretted that the enforced publicity which has been given these initial experiments, which are essentially experiments and nothing else, may lead to quite unfounded expectations.

It is the practice of all scientific men not to make public the results of their work until these are certain. This consideration and not any desire to withhold from the public matters in which the public is interested has dictated the policy thus far pursued here. The fullest publicity consistent with the national interest (these recent experiments have for their object the development of a machine for war purposes) will be given to this work at the stage that warrants publication.

COLOMBIA [illegible] THROUGH WITH CANAL TREATY

[illegible] has been received by Dr. Herran, the Colombian chargé d'affaires here, indicating an intention on the part of the Colombian senate to resume the consideration of the subject of a Panama canal treaty in [illegible] of the one the [illegible] approved that [illegible] on the 12th inst.

This shows a [illegible] change in the turn of affairs and leads Dr. Herran to hope that a measure yet will be passed by congress which will form the basis for the ratification of a treaty between Colombia and the United States for the construction of an isthmian canal.

Dr. Herran's information is that on the [illegible] inst. the [illegible] after the disapproval of the treaty by the senate [illegible] a committee of the [illegible] to act jointly with a committee from the house of representatives for the formulation of a measure having for its object the ratification of a treaty between the two countries by the executive of Colombia after the two houses of the Colombian congress had passed [illegible] outlining the terms and conditions on which the treaty should be drawn. The president of Colombia by this act would have full power in the premises and the treaty would not have to be again submitted to the Colombian congress.

The [illegible] is similar in its intent to the provisions of the Dingley tariff act which gave authority to the president to negotiate reciprocity treaties with foreign powers except that in the case they had to be ratified by the United States senate. The Colombian [illegible] the proposition is not [illegible] on the [illegible] itself as this act gives authority to the president to [illegible] negotiations with the governments of Nicaragua and Costa Rica in the event that he was unable to reach a satisfactory agreement with Colombia for a right of way for the Panama canal.

The Associated Press [illegible] Bogota [illegible] is explained [illegible] that perhaps the initiative taken by [illegible] Colombia's [illegible] according to Dr. Herran's information [illegible] that [illegible] houses of the Colombian congress [illegible] agreed on a measure [illegible] with the [illegible] to ratify the canal treaty. The [illegible] having [illegible] the [illegible] Colombia debates the [illegible] [illegible] is [illegible] [illegible] for [illegible] long lines that will [illegible] Colombian [illegible] this [illegible]. REUNION OF VETERANS OF SPANISH-AMERICAN WAR

San Francisco, Aug 19—The veterans of the Spanish-American war and the Philippine insurrection held a largely-attended reunion tonight and camp fire at their armory on Ellis street. Previous to the arrival of their guests, the election of officers was held with the following results: Commander-in-chief, General Owen Summers of Oregon; senior vice commander, Major B. T. Sime of California; junior vice commander, Colonel J. L. McClintock of Arizona; judge advocate-general, General W. P. Metcalf of Kansas; surgeon-general, Major L. S. Brown of Kansas; chaplain-general, Rev J. S. Wooley of Rhode Island.

The adjutant-general and quartermaster-general are to be appointed by the commander-in-chief. A resolution was adopted declaring strongly in favor of consolidation of all existing orders of veterans of Spanish-American and Philippine wars.

The camp fire was attended by Governor Pardee and staff and a number of prominent eastern visitors.

BRIEF CITY ITEMS.

LANTERN SOCIAL—There will be a Japanese lantern social at the Moreno Christian chapel tomorrow evening. Everybody is invited.

HOLINESS MEETING—The tenth annual camp meeting of the Colorado Holiness association will be held at Argyle park, Denver, from August 28 to September 7. A number of Colorado Springs members will probably attend. Rev W. H. Lee of this city is one of the speakers engaged.

PERSONAL MENTION.

General L. E. Sherman left yesterday for Hot Sulphur Springs to attend a number of important land contests before the United States commission.

William E. Freniye of the firm of Bonbright & Co. will not spend his vacation here as he at first intended, but will go instead into the woods of Ontario and hunt moose.

Mayor Carter H. Harrison of Chicago has abandoned his proposed trip to Colorado Springs and Denver. The reason assigned is that the mayor is too busy to leave his home city.

CARRIERS PICNIC AT PROSPECT LAKE TODAY

The letter carriers of the local postoffice will give their picnic at Prospect Lake today. The crowd will start for the lake at 9 o'clock. The public is cordially invited to attend and join with the postoffice employes in the entertainment that has been provided. The picnic is being held for the purpose of raising funds to send a delegate to the meeting of the National Letter Carriers association in Syracuse, New York, on Labor day. During the afternoon a program of field sports will be carried out. These will consist of foot racing and bicycle racing and other contests. A large crowd is expected to attend.

AGAINST THE HATLESS WOMAN

An Illinois Pastor Says Bareheaded Girls in Church Are Shameless

Carlisle, Ill., Aug 19—The Rev. A. A. Cairns, rector of the Episcopal church here, who recently came from New York, declares that it is shameful for a woman to attend church without a hat. Mr. Cairns decided to stop it in his church and posted a notice in the vestibule of the church which reads:

"Women and girls are requested not to attend church in their bare heads." The eleventh chapter of Corinthians was given as reference. The verse applying in this case supplemented by comments prepared by a religious authority reads as follows: "The man that prays or prophesies with his head covered dishonoreth his head, that is Christ. The woman on the other hand who prays or prophesies with the head uncovered, dishonoreth her head, for that is even as if she were shaven. She appears in the dress of her superior and throws off her token of subjection. She might with equal decency cut her hair short, the common dress of men of this age."

[illegible] SALESWOMAN

Compelled to Be on Her Feet the Larger Part of the Day Finds a Tonic In Pe-ru-na.

Miss Curtain, of St. Paul, Gives Her Experience.

MISS NELLIE CURTAIN, 616 Pearl street, St Paul, Minn., head saleswoman in a department store, writes:

"I have charge of a department in a dry goods store, and after standing the larger part of the day, I would go home with a dull ache, generally through my entire body. I used Peruna and feel so much better that I walk to and from the store now. I know Peruna to be the best medicine on the market for the diseases peculiar to women."—Miss Nellie Curtain.

Nothing is so weakening to the human system as the constant loss of mucus [illegible] inflammation of the mucous membrane produces [illegible] excessive formation of mucus. Whether the mucous membrane be located in the head or pelvic organs, the discharge of mucus is sure to occur.

This discharge of mucus constitutes a weakening drain. The system cannot long withstand the loss of mucus, hence it is that women afflicted with catarrhal affections of the pelvic organs feel tired and languid, with weak back and throbbing brain. A course of Peruna is sure to restore health by cutting off the weakening drain of the daily loss of mucus.

An Admirable Tonic.

Congressman Mark H. Dunnell, National Hotel, Washington, D. C., writes:

"Your Peruna being used by myself and many of my friends and acquaintances not only as a cure for catarrh but also as an admirable tonic for physical recuperation, I gladly recommend it to all persons requiring such remedies."—Mark H. Dunnell.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

KANSAS CORN IMMENSE.

Reports Indicate a Much Greater Crop Than Was Expected

Topeka, Kan., Aug 19—Reports from Kansas counties as to the condition of corn indicates a remarkable situation. The yield will be greater than was estimated a month ago. Some of the counties, notably Butler, Stafford, Chase, Harvey and Wilson, say they will have much more corn than last year. From fifty to sixty bushels an acre is the estimated yield in those places. In some counties the elements won against the farmers, but in every instance a better crop was raised than the farmers expected. All kinds of forage crops are fine. Late heavy rains have made a great hay crop and the late pasture will be excellent.

A WOMAN'S DEATH PARTY

The Entertainment Given by a Dying New York Girl.

New York, Aug 19.—A young woman who is believed to be dying of consumption gave a novel party in Mount Vernon last week. She called it a death party. An Obliging Sheriff

I have been spending a part of the summer on the Island of Nantucket, said the summer girl, and among other interesting relics of early New England life I saw the old massive [illegible] jail which has so far departed from the use for which it was built as to become one of the sights.

There are many interesting stories connected with this old prison and the most modern is the funniest of all. It sounds improbable, but I was assured by several persons whose word I could not doubt that it was quite true.

It happened some years ago that an islander was convicted of some offense and the judge who came to the island from the mainland for the trial decided to make an example of him and sentenced him to jail for three months.

A couple of mornings later when the judge was walking to the pier to take the boat to return, accompanied by the sheriff, who was a Nantucketer, they passed a man sawing wood by the roadside, who touched his hat politely and said, 'Good morning, judge.'

The judge stared at him in surprise and said to the sheriff: 'Isn't that the man I sent to jail for three months?'

"Well, yes, it is," said the sheriff, "[illegible]

Worse Than to Be Hot

How do you manage to keep cool? one man asked another as they walked along Griswold street.

Why, it is very easy, was the reply. I go to bed early with the windows wide open, and I get up early in the morning. I take a cold sponge bath and eat a light breakfast—no hot food, and no meat at any meal. I walk slowly to the car, being careful to keep on the shady side of the street at all times. I never look at a thermometer or a weather prognostication. My wife keeps the windows closed at home and the curtains down during the day, and we do the same at the office as far as possible. I have cut out tea and coffee and I drink no water and very little milk at my meals. I take a glass of water in the middle of the forenoon, another in the middle of the afternoon and the third just before going to bed. The water is not iced either. I don't allow ice cream and iced melons in the house. I do not touch beer, whisky, soft water or anything of that kind. And I have stopped smoking, because it heats the blood.

Is that all?

Yes.

Well, I think I'd rather be hot.—(Detroit Free Press.

A VICE PRESIDENT FROM THE WEST.

THE NEBRASKA CONVENTION struck a keynote for all western Republicans in the demand made on Tuesday for recognition upon the national ticket of the party

If the presidency is to go to the east as it usually does and probably will do for a number of years to come the west should be given second place on the ticket And by the west is meant not Ohio or Indiana but the real west that vast expanse of the continent lying west of the Mississippi river

With occasional lapses this western country has been Republican It is becoming more certainly and safely Republican with every passing year One of the best ways, therefore to assure a continuance of the west in the Republican column is by giving recognition such as is demanded by the Nebraska Republicans

Such an act would have a tendency to do away with the feeling of the west that it is ignored in party councils as being of no importance and unworthy of consideration It will pay to cement party ties and to unite members of the party everywhere The efforts of all western delegates congressmen and newspapers should therefore be devoted to securing this act of justice at the hands of the national convention

The action of the Nebraska Republicans in the matter of platform is likewise to be commended The document in every line is straightforward and clear and speaks with no uncertain tongue

The demand for legislation that will extend the commerce of the country in every land and that such commerce be carried in American built ships sailing under the American flag will strike a responsive chord in the heart of every loyal citizen of the country

The Philippines question is dealt with fearlessly as it ought to be The islands are ours obtained honorably, and are to be held in sacred trust for the people thereof who are to be taught the principles of true liberty and good government

Speaking of trusts the platform does not mince words It declares the utmost sympathy and hearty co operation for all legitimate business enterprises but unalterable opposition to all combinations of capital under whatever name which have for their purpose the stifling of competition or arbitrary control of production or prices

Taking it as a whole therefore the Nebraska platform is a sound well written document thoroughly patriotic and genuinely American and may be safely taken as a model by other state conventions

VETERANS IN SAN FRANCISCO.

THE PEOPLE of San Francisco are amply fulfilling all pledges made by them for the reception and entertainment of the members of the Grand Army The veterans are having the time of their lives with excursions on land and sea banquets and luncheons and no end of good things The time and place are both propitious as it is probably the last time that the encampment will be held upon the Pacific slope It is certainly the last time that there will be a large attendance of old soldiers at an encampment so far away In view of this fact the men and women of San Francisco are vying with each other in making the stay of the veterans an occasion of endless delight Nothing is too good for them the town is theirs

The members of the Grand Army will leave the coast with only happy memories of the great occasion which will serve as a topic of conversation for let us hope many years to come

A MATTER OF RAILWAY TICKETS.

AN IMPORTANT matter is being tested in the courts of Colorado which concerns the right of a railway to withhold the return portion of an excursion ticket in the belief that it is to be sold to a ticket scalper A case is now on trial in Denver and another was heard in this city yesterday

While the railroads do not actually refuse the ticket, they agree to give it to the passenger as the train is about to start Those who have purchased tickets and deposited them claim the right to be given the ticket at any time during the day on which they desire to return

The decision of the justice court in Colorado Springs appears to be sound that a ticket owner has a right to his ticket whenever he calls for it and that his motives are not to be questioned

Mr William Scott Lee of Denver undoubtedly realizes that it is a mistake to talk of grand jury room secrets outside the court The fine assessed against him will serve as a warning to the other jurors One of the principal reasons for the effectiveness of the grand jury is its secrecy and it is necessary that there should be no intimation as to its proceedings if the jury is to obtain needful information and do its whole duty

The Chicago Employers association has voluntarily agreed to raise the wages of its employers 15 per cent as a result of an investigation by experts upon the increased cost of living They have found that in the last decade prices have risen for food clothing and other commodities upon an average of 15 per cent and the employers have generously conceded the increase when the facts were made to them

The treasury receipts for the first fifteen days of August show an excess over those for a similar period last year If these receipts may be taken as an index of the condition of the country then the nation is quite as prosperous as it was last year, and that is good enough for anybody

General Miles certainly is not lacking in being 'among those mentioned' Within a week he has been suggested as a candidate for the presidency of the United States, for commander of the Grand Army and for governor of Massachusetts He might well beg to be spared from his too persistent friends

Mr James H Eckels wanted to find out the condition of the crops in the west and south but he didn't write to the farmers but to the bank president. Nobody keeps better tab on the agricultural outlook than the man in the banking business

The reports from the fire on El Paso street a few nights ago indicate a serious state of affairs with regard to water supply in that particular section Even though it was the middle of the night when the pressure is supposed to be the strongest, the firemen were scarcely able to get a stream to the roof of a one-story cottage Either the supply is entirely insufficient or the main is altogether too small, but in either case the matter should be remedied for the safety of that section of the city

TODAY'S YACHT RACE.

THE first race of the series between the yachts Reliance and Shamrock III will be sailed today

There is a general interest in the event even in the Rocky Mountain region, where the only boat that finds water enough to navigate is the prairie schooner

Everybody hopes that there will be enough wind to make the contest something more than a drifting match and everybody in this country hopes the Reliance will win

But even the real sportsmen hope for a close and exciting finish and would like to see the winner take only three out of five races

Sir Thomas Lipton is a fine type of the plucky magnanimous yachtsman Though defeated twice in succession he again essays the task of lifting the cup Americans would be willing to give Sir Thomas almost anything banquets freedom of the city a house and lot—but they draw the line at the America s cup

Professor Langley is modest in discussing his new flying machine but with the pride of the inventor he cannot fail to mention that his invention is practically the first machine far heavier than the air itself to be sustained in the air for more than a few seconds by purely mechanical means'

A Denver woman who has been carrying a revolver for many months forgot to use it when she was held up a few nights ago It is difficult to tell which is the more remarkable the fact that she carried the revolver for six months or that she forgot to use it

Those Prohibitionists in New York who are condemning President Roosevelt because he is going to address the national body of the Fraternal Order of Eagles appear to lost sight of the fact that he is president of the whole people and not of a chosen few in New York

Col Henry Watterson the comet chaser of the Democracy is hunting for a suitable candidate for the presidency After he locates him the colonel will proceed to lead him through a slaughter house to an open grave

Senator Gorman has a theory that the Democrats are going to hit the Republicans on the funny bone and paralyze them into inaction at the next presidential election The latest exponent of that idea it will be recalled was Mr James J Corbett

H O Havemeyer the sugar magnate has offered a $500 cup for the best exhibit of sugar beets to be shown at the Irrigation congress Why not express the cup to Colorado at once?

A shipload of German provisions and beer is being held up in New York pending an examination as to its purity As a result Hoboken N J and Cincinnati O are in mourning

Anyhow General Miles is giving the Democrats lots of fun in their guessing contest as to what he would do if they offered him a nomination

Those Nebraska Republicans in state convention assembled evidently knew what they wanted to say and how to say it

The attempt to resurrect Hon Adlai E Stevenson is a failure Mr Stevenson himself is authority for the statement

THE MERCHANT AND THE LOCAL NEWSPAPER

The merchant who doesn't do all he can to make the local newspaper a success financially and editorially is only exceeded in short-sightedness by the merchant who vigorously opposes the improvement and advancement of the town he lives in

The newspaper may be opposed to you in politics its editor personally disagreeable to you but the fact remains that from a strictly selfish standpoint it is one of if not the most valuable adjuncts to your success It is by far and away the cheapest best and most effective way of extending your trade and that should be the prime object of your business existence It is reported that Jay Gould was once asked upon the witness stand What are your politics He replied I am a Gould man Asked for an explanation he said Well I am sometimes a Republican and some times a Democrat but always for the party that best represents the Gould interest In this day of the survival of the fittest in all business matters it behooves the merchant to think with his head and not with his emotions

We are generally Democrats or Republicans Baptists Presbyterians or Catholics to a large extent at least because our parents were But we are in the grocery drug or general merchandise business of our own choice and volition We should sink prejudice (not principle) in our efforts to be a business success and we will find that toleration and kindliness not only add to our prosperity but make us broader better men and citizens

A well read widely circulated local newspaper affords a field for the exploitation and extension of a well conducted business where the proprietor has the insight and capacity to utilize its capacity far in excess of any other force Help your newspaper not only by doing a considerable amount of advertising in its columns but by taking pains to give it every item of news or interest that comes to your knowledge You will find that this is indeed Bread cast upon the waters —(The Ad-Writer

OUR BORROWED NATIONAL AIRS

Complaint is made that the Star Spangled Banner is not treated with due respect when played at places of amusement and in explaining that it is not popularly recognized as the national anthem America is decided with the observation that since the air is borrowed we cannot look upon it as our own The critics of America do not seem to know that the Star Spangled Banner is in the same case since its tune is that of the eighteenth century English drinking song Anacreon in Heaven Imaginative people have found in the music to which Francis Scott Key s verses were written the very genius of patriotism battle triumph and glory but its splendid and stirring strains were not wrought with Fort McHenry in view —(Springfield Republican

THE DESERT.

(Recitative)—Oh' desert land'
The land of the smiting sun glare deep
Blue of the star pierced night
Of rock piled heights and chasms awe
Fraught to the dizzying sight,
Where the shadow ever chases the light
Of the blinding day
With purple and pink and crimson opales
cent and far away
The candlesticks of the cactus flame
torches here uphold
Sunflower disks and feathery mustard
spread fields of the cloth of gold
The polished cups of amole are gilded with
spears of thorn—
When the desert wind arises—and they
fade as they were born'
The rainbow colored spaces wan and
withered in a breath—
Bones of man and beast lie together, under
mirage mock of death

(Chorus)

Life of sky and sand awaking to [illegible]
when all is done
Land of the absolute people born of sire
[illegible] and sun'

(Recitative) Oh desert land

MARCH OF THE RACES

THE PUEBLO

To the Holder of the Trails of Life
The Pueblos prayers ascend
He furrows earth with his stone chipped
knife
Where the frowning canon bend
And the [illegible] line of the mountain
stream
He m[illegible] and store it will
When [illegible] of life flash across his
[illegible]
And [illegible] plumes wave on the hill
[illegible] waft to the heart of the summer skies
His thanks to Those Above
For the rains that the summer butter
flies'
[illegible] to the fields they [illegible]
[illegible] clouds stirs and the fruitful
corn
He paint on his fashione clay
In watered meads were proud cities born—
All [illegible] swept ruins to [illegible]

(Chorus)

The west reclaims the ribboned rills by
[illegible] thence won—
Land of the wise peaceful people [illegible]
[illegible] to then home in the sun

THE INDIAN

As stars [illegible] the fields of sky
[illegible] red men swarm o'er plain
[illegible] hunts the [illegible] flocks
The warrior bears his slain
[illegible] ensanguined warpath
[illegible] their evil days
The [illegible] spirit smiles down their dark
[illegible]
Yet [illegible] gift of maize

(Chorus)

[illegible] our hills the crimsoned stains
[illegible] are [illegible]—
[illegible] of wilderness people nourished
[illegible] and sun

THE PIONEERS

To the throbbing heart of the fervent
earth
Went the men of latter day
To the trackless buttes and the desert
dearth
Of the mesas far away
Champion leader father and clear eyed
[illegible]
[illegible] first in the pilgrims van
With [illegible] —strong [illegible]
[illegible]
[illegible] sunset s rem test [illegible]
[illegible] tree [illegible] seed [illegible]
[illegible]
[illegible]
[illegible]
Living streams gushed from [illegible]
Forth from the heart of the hoary rock
The prophet smote with his rod
[illegible] the waste where sons of Edom
[illegible]
They look to [illegible] God

(Chorus)

[illegible] can smile in Deseret [illegible]
[illegible] heights that [illegible]
[illegible] promised people [illegible]
[illegible] fields [illegible]

THE IRRIGATED REGION

(Recitative) Oh glorious land
The land of homes for the homeless of
shepherd flocks and herds
The land where the green walled thickets
are choral with songs of birds
Where [illegible] silent furrows silver
[illegible] rehewn
Where [illegible] world [illegible] with
wealth of the vine and corn
The land of the sunny spaces the land of
early gladness
Of the faith that rises in the desert the
promise of verdant blades,
Where [illegible] purple crimson and golden
[illegible] from Plenty s horn
Where [illegible] of [illegible] fealty of divine
[illegible]
Where the glimmering heights of future
gleam fair regenerate years
Rest crystal chalice of water the trans
[illegible] globe of seers

(Chorus)

In the garden grows the Tree of Life
where Eden s rivers run
Land of the world dowered people [illegible]
[illegible] water and sun

(Recitative)—Oh' glorious land

CHORAL

1

Creator' in the morn
When starry worlds were born
To worship Thee
Day was divided from night
Life teemed in depth and height,
Joined grove and wave and light—
In trinity'

2

From grim Assyrian world
Where Egypt rose empearled
From the flood free—
From Mexico s blue lake
Where the proud Incas slake
The desert s thirst—they make
The Past for Thee

3

From the clear waterways
A thousand songs of praise
Arise to thee
Thine the green hearted wood,
Thine silver crested flood,
Fields by the sun-kiss wooed—
The Now for Thee!

4

The Future s sweet stern eyes
Look out in glad surprise
On lands to be;
Where the world s three in one
Forest and stream and sun
Have wrought a realm well won—
Future! for Thee!

His Vague Hint

"Why," asked her anxious and excited mother, 'do you think he is coming to the point at last'"

"Well," the maiden replied looking demurely down at the rug "when he took me in his arms and kissed me last night he said he d got so used to me he didn't believe he could ever break himself of the habit."

SHORT STORIES

I know a Georgy genneiman
Whose deeds would make you blush;
He went into de evening skies
An stole de sunset flush

He rifled all de orchards round
Dat came within his reach
From eberry kind of fruit dat grows
He stole de sweets of each

Dey passed a sentence on de thief—
Yo know him ebarywhere—

One of the best known lawyers of the city had a case in court against a man who kept a cigar store opposite one of the large hotels The man had in some way broken the law, says the Philadelphia Ledger

Do you mean to say asked the lawyer that you have made a living out of that store for one year?'

Yes replied the man gentlemen come from the hotel early in the morning and ask for 1 and 25 cent cigars I hand them out 5 centers and they don t know the difference

In possible said the lawyer

Oh no it isn t said the storekeeper calmly I have done it on you several times

Dr W F Bull tells this story about a country surgeon who once had three leg amputation cases in a week says the New York Times The unusual number of serious and similar operations naturally caused talk in the surgeon s household and his little daughter was greatly interested A few days after the last operation the surgeon s wife and daughter were rummaging in the attic In the trunk was found a daguerreotype depicting a girl of about 5 years of age The portrait through a peculiarity of pose showed only one leg of the subject the other being doubled up under her in a manner truly feminine

Whose picture is that mamma asked the surgeon s daughter

Mine It was taken when I was a child not much older than you are now

Did you know papa then

No dear Why do you ask?'

I thought maybe you did because you ve only got one leg

When Will M Cornell was the manager for Amelia Bingham some few months ago he acquired the habit of leaving the theatre immediately after the house was counted up says the New York Times He found the Lambs club or some billiard room a more pleasant loafing place than the theatre Miss Bingham noticed his absence once or twice and then spoke to him suggesting that he stay at the theater until the curtain was rung down the last night

But why should I stay around the theatre? asked Mr Cornell

There s nothing I can do here

Something might happen suggested Miss Bingham The theatre might catch fire

What if it did? asked the manager I m not a fireman

MUSCLES RELAX BUT BOY STILL SUFFERS

In His Agony, Albert Adams the Lockjaw Patient, Pleads With Physician to Kill Him---Denver Specialist Interested in Case.

His entire system racked with the pain caused by lockjaw Albert Adams aged 14 years lies in his bed at the home of his parents, No 646 East Maple street and in a voice weak from suffering begs those around him to end his life His pleadings are pitiful, and friends and neighbors who visit his bedside are deeply touched by the little fellow's suffering

Several physicians of this city called to see the patient yesterday as did also a number of visiting members of the profession Dr I B Perkins of Denver, who is preparing an article on tetanus for a medical journal may visit Colorado Springs to see the boy

Tetanus in its most aggravated form has now got its hold on Young Adams Yesterday the muscles of his back neck and jaws were slightly relaxed but he is still unable to turn or move his head or jaws Physicians who have seen similar cases say that there is no other form of pain so terrible as that which manifests itself in lockjaw Happily it is so rare that very few people suffer with it

Since the introduction of anti tetanus serum in a cure a number of cases have been reported as successfully battled with The fluid which has saved several lives is practically new and greater results are expected from it than those which have already been obtained A peculiar feature of the usual attack of tetanus is the fact that while the pain is excruciating the sufferer rarely loses consciousness and is forced to bear the pain with absolutely no hope of anything like immediate relief Chloral and other narcotics which are sometimes administered strangely enough fail to alleviate the suffering even when given in doses larger than ordinary

The attending physicians last night expressed the hope that Albert Adams would recover although it is admitted that recovery is very doubtful The case is being watched with great interest by physicians all over the state

[illegible] MIGHT GET $75,000 CONTRACT

Architect T MacLaren of this city has excellent prospects of securing the award for furnishing the plans for the new St John's cathedral in Denver A number of Denver architects are competing against him but his previous success in such competitions argues well for him in this case Mr MacLaren has made a specialty of churches and his plans have been accepted all over the state He has done a great deal of work for General William J Palmer and was the successful competitor in the submission of plans for the Colorado building at the St Louis world's fair

The new St John's cathedral will cost $75,000 and will be erected on a new site at Fourteenth and Clarkson streets Dean Hart has been in the city several times conferring with Architect MacLaren respecting the plans for the new edifice which will be one of the finest in the west when completed.

[illegible] PICTURE [illegible]

The worst scrap ever seen on a ball field was photographed by a moving picture camera yesterday afternoon The players on both teams entered into the spirit of the fun and Bat Masterson acted as umpire a dummy figure made up exactly his size and greatly resembling him in the face being used for the various changes The play came off just before the bell rang for the regular game and the audience appreciated the fun The program as outlined was carried out except at the finish After the umpire had been killed and kicked around the field by the players the corpse lay on the ground for several seconds Then it gradually came to life, looked up and jumped to its feet highly indignant because it had been treated so badly An effort is being made to have the picture on the screen at Stratton park about the middle of next week

Stella Rector Arrested on Complaint of Tourist, Who Accuses Her of Stealing $30 From Him ---Woman's Home Searched.

Stella Rector who formerly conducted The Rector a rooming house at 115½ South Cascade avenue was arrested yesterday morning on a warrant sworn out in Justice Ruby's court charging her with having stolen $30 from B F Smith a tourist Shortly after noon a search warrant was issued directing Constable Shellenberger to search Miss Rector's house and particularly the room occupied by her

Upon the first warrant issued the woman was taken to Justice Ruby's court and her preliminary hearing set for Saturday morning at 9 o clock. She was released under $700 bond

Miss Rector claims she is a victim of blackmail I never saw Smith before she said 'and have something else to do besides entering rooms for the purpose of stealing any money I might find lying around I don t want his old money I can make enough honestly, and I do make it The man virtually admitted that the whole thing was a put up job because he offered to settle for $20 and say nothing more about it I told him I wouldn t listen to any such proposition, and I am going to make him prove his charge If he really lost $30 and knows I have it as he claims he does he wouldn t want to settle for $20

Smith claims that he came to the house late Tuesday night and took a room He says also that he had a pocketbook containing $30 which he claims he put under the mattress of his bed When he got up yesterday morning he says he went out on the street for about half an hour and left his pocketbook behind When he returned he claims he saw the proprietress of the rooming house cleaning his room and taking the covers and mattress off the bed I looked for the pocketbook he said but could not find it the proprietress claimed to know nothing about it and I accused Miss Rector of having taken the money She was passing the door at the time but I don t know whether she had been in the room or not

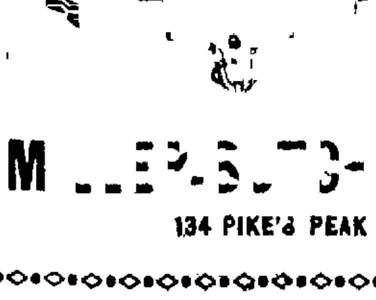

When the search of Miss Rector's room was made under the authority of the warrant $ 00 in bills was found part of which Miss Rector said she had received several days before as receipts for her interest in the rooming house Among the bills found were several $ and several $10 bills and when Smith looked at them he picked out one of the former and one of the latter denomination and said they looked like the ones he had in his pocketbook He could not identify them however The money was taken by the constable and will be kept until the result of the trial is learned

CHILDREN WILL INDULGE IN MOTHER GOOSE PRANKS

The beautiful and spectacular operetta, 'The House That Jack Built' will be given at the opera house on Tuesday evening, August 25, Wednesday matinee and Friday evening August 28 to help increase the fund for the maintenance of the free kindergartens of the city. The children evince the liveliest interest in the action and Miss Martin is certainly a wonder as a director

STRATTON PARK WAS THEIR MEETING PLACE

A regular old-fashioned basket dinner was indulged in yesterday by the Illinois people who are in the city 'Illinois day' was celebrated at Stratton park and the street cars were kept busy all morning taking the crowds to the picnic The occasion was the annual reunion of all persons now living in the state who at one time claimed Illinois as their home

City Attorney Will Not Prosecute Coray Till Instructed, so to Do but Presumes Cases Will Come Up.

City Attorney Sheafor said yesterday that he would not proceed against the bondsmen of P G Coray until he was directed to do so by the city council I have no right to take the initiative in the matter I was directed to make a demand upon the bondsmen and I have complied with the direction My action ceased there however unless I am further advised to bring suit Simply because I am the city attorney I have no authority to bring suit and plunge the city into litigation If I take any such course it will be on the advice of the proper authority

I have no doubt the council will make such a direction when the proper time comes Coray however has a right to examine the books of his office just as any citizen would have and the council will doubtless give him a reasonable time within which to make the examination '

Coray will not be allowed to take the records from the office of the building inspector or water commissioner and his examination will have to be conducted there Inasmuch as the shortage in his office was determined from compilation of the books and records of the two offices Coray will try to examine the [illegible] in order to arrive at the conclusion he seeks to establish namely that no shortage exists and that the discrepancies are the result of a mistake He will be able to make a transcript of the record made by A countant [illegible] which shows exactly from what offices the [illegible] his deficit [illegible]

In speaking of the criminal prosecution Mr Sheafor said I have nothing to do with that phase of the case It is entirely in the hands of the district attorney and I presume the cases will go on trial at the time set

"I've got $9,000 in the bank at Salt Lake City but as long as I can work for a living what do I want with it"

This question was asked in the county court yesterday by J K Anderson who was arraigned on a charge of insanity It's been there [illegible] years now he continued and there [illegible] there has my bank book but I don't care I'll get it when I want it He told me to let him know when I need it and he'd send it to me

Anderson was arrested several days ago on the complaint of W H M[illegible] the proprietor of the Colorado Springs laundry He charged him with threatening to kill everybody and with flourishing a revolver When he was brought before the county court yesterday shortly after 1 o clock he proceeded to tell how he had been abused by the police and the jail officials I was in there talking to the laundry man ' he said when a policeman came in and took me down to the county jail And that fellow didn't know his business When I got there he put me in a cell and locked me up like a murderer I told him who I was but he laughed at me and when I went to clean out the place he sent a dozen fellows inside with mops to clean out the water

At 8 o clock the distinguished Missouri congressman Champ Clark will give an address upon Picturesque Men in Public Life Large crowds will no doubt hear these two speakers

BEST DESCRIBED AS WHEELS WITHIN WHEELS

S M McSpadden a stenographer in the employ of the United States Reduction & Refining company was arrested yesterday on the complaint of P W Smith who charges him with stealing his bicycle Smith says he lost the wheel over a year ago and has been looking for it ever since He found it in the possession of McSpadden several days ago and claimed it McSpadden protested against the claim saying he had bought it several months ago and supposed it belonged to the man from whom he purchased it

The matter is being investigated and it is probable that an agreement will be reached before the trial

'HOW TO BUY SHOES '

A New Book, Written by One Who Knows—Interesting, Instructive, Valuable—Mailed Free

How to Buy Shoes by A Shoemaker is the title of a very interesting book just published by the W H Price Leather Company of Philadelphia Written in a pleasing manner by one who has been trained in all the different branches of the business it not only proves interesting reading but tells the shoe and leather story completely even to the smallest details

The writer who is evidently a master of his subject devotes considerable space to the kind of leath used in the making of shoes Shows clearly the fallacy of accepting without investigating the claims made for these various leathers Proves beyond question of doubt that the best shoes are those made of Ideal Leather which has in five years time established its fame wherever civilized man wears shoes The author grows quite enthusiastic over this bright glossy leather and claims that it is always strong and soft can t get hard is not affected by rain or snow and will not burn the feet in summer nor chill them in winter

This valuable book which should be read by everybody will be sent free to any address upon request by the publishers

TRANSCRIBING THE GOLDEN CYCLE RECORDS

District Clerk Clyde Starrett is completing the record in the Golden Cycle case, preparatory to appealing it. The bill of exceptions has already been prepared and will be filed with the clerk of the court of appeals before the beginning of the September term.

Mr Starrett has been working on the record for several days and has promised to have it in shape for filing by September 1. It is the intention of the plaintiffs in the Golden Cycle suit to have the question brought to a decision in the higher court during the September term, and Attorney Potter will ask that it be set for as early a date as possible. A great many cases are on the calendar of the court of appeals however, and it is doubtful if the court will be able to get to the case unless it is put ahead of a number of others.

The decision of Judge Lewis, granted June 22 upheld the defendants and authorized all the actions complained of by the plaintiffs in their complaint. The most conspicuous action of the company which was thus authorized, was the right given to General Manager L. F. Hill to operate the Theresa property through the workings of the Golden Cycle. The questions were gone into thoroughly by Judge Lewis in the opinion rendered and the same arguments made before him will be made before the court of appeals.

Does your memory ever call you back to the day when you were a little tot, and the advance agent of the old-time circus invaded your little home town with his pretty pictures of prancing ponies, elephants, dogs doing all sorts of tricks, and the merry old clown with his funny painted face and grotesque garb and the innumerable wonderful things to see? Of course it does. Do you remember how your heart beat and how you longed for the time to come when the circus would arrive and after counting the weeks and days and hours the time arrived and the greatest show on earth appeared? Was that not one of the happiest days of your life? Without a doubt it was. Time has passed since then. You may have little children of your own now who will experience the same joys and sensations, the expectations and disappointments that you did. Norris & Rowe's Big Shows are coming to this city, giving two performances under their enormous waterproof tents Wednesday August 26. Do not fail to take the little ones to this great moral show, do not fail to let them see the new free spectacular street parade at 11 o'clock on the morning of the exhibition. You cannot crowd too much sunshine into their lives. Their happiest days are now and they will remember the day spent at Norris & Rowe's Shows in after years as one of the happiest in their lives. Do not disappoint the little ones.

WIDOW GIVES OPTION ON PROPERTY OWNED BY HUSBAND

An order was issued by Judge Orr yesterday morning to Mrs H A Brown authorizing her to grant an option on the interest of her deceased husband in the H. A. Brown Commission company. While the order signed does not mention the consideration to be paid or to whom the option is to be granted, it is understood that Clarence Underhill who was associated with Mr Brown in the commission business intends to purchase the interest held by his former partner.

SWEET PEA AWARDS AND PRIZES FOR FLORISTS

Opening Day of the Flower Show Was Attended by Hundreds and Kept Judges Busy Until Late at Night.

Tea will be served at the flower show again today from 4 until 6 p. m., by Mrs Jewett and Mrs Goddard. Those ladies assisting will be:

Mrs. H. G. Lunt, Mrs. H. L. Ballou, Mrs Furnsworth, Mrs. W. A. Otis, Mrs. J. T. Anderson, Mrs A. G. Brigham, Mrs L. E. Curtis, Miss Dorsey, Miss Hine.

Mrs W. W. Price has charge of the musical program for the three days. The vocalists today will be Mr. Francis Walker, the New York baritone, and Mrs Charles S. Sprague, one of Colorado Springs' favorite sopranos.

Early yesterday morning the exhibits began arriving and the locality was alive with teams. Hundreds of willing hands deftly toiled with a surprising celerity and by noon quite a degree of order had been brought out of apparent chaos.

The sight was one unsurpassed in the quality and quantity of the products gathered together, flowers being the most profuse, of course, yet the array of mammoth vegetables from the kitchen garden made the mouths of many water. That greater interest than ever has been taken in the show, is shown by the splendid list of prizes.

In the first tent on the right were thousands of sweet peas, of every known color and of the finest varieties. Beyond were the dahlias, a special display being from W. A. Willmore of Denver, whose dahlia garden is said to be the finest in the west.

William Clark and F. A. Perkins each set a table showing decorative possibilities. There were mantels also for each table decorated to match. Purple asters in a flat mound with ferns and corsages and boutonnieres of sweet peas were on the first. Mr Clark's center piece was of scarlet carnations, white snapdragons and maidenhair ferns. The third table was of pink sweet peas and baby's breath. Several handsome set pieces were seen, notably a bannerette of pink asters, an elk of purple and white asters, bridal bouquets, etc.

Tea Was Served.

Even more than ever before the flower show took on a social phase. The second right hand tent was the scene of much gayety between the hours of 4 and 6 o'clock in the afternoon. Tea was served by Mrs W. K. Jewett and Mrs F. W. Goddard, assisted by Mrs. J. G. Shields, Mrs M. T. Hatch, Mrs J. A. Lockhart, Mrs N. F. Mack and others. The proceeds are to be donated to the Young Women's Christian association.

The tea table was a beauty, for it was laid with the large solid silver salvers and tea sets belonging to the hostesses and satin damask and hand-wrought honiton lace. Then the exquisite cut glass rose bowls were set about the table overflowing with the choicest of pink sweet peas and cosmos, mingled with maidenhair ferns. With the tea delicious loaf and cup cakes, real home-made, were served. No wonder the tent had to be replenished over and again.

Equally busy were Mrs W. W. Williamson, Mrs E. J. Ulrich and A. G. Brigham, who dispensed ice cream in another portion of the tent. That table too was gay with masses of fine sweet peas in several tints.

The tent was decked throughout with splendid palms, sago and sword palms, dracaenas and bay trees. Then too were the tables bearing the brilliant display of cut flowers, arranged by Miss D. A. Russell.

While the tea progressed Mrs W. W. Price conducted a pleasing musical program. Misses Carolyn Alley and Lydia Nichols played duets. "A Country Dance," "The Hero" and other selections. Miss Floy Price rendered some excellent piano solos and a competent Mr Victor Clemence who sang the Tosti solos "I'll Molloy's "The Carnival," Douglas Craig? Lawrence Kellogg and other songs. The little choir boy who has such a remarkable voice, Nelson Elliott sang "Alma" "Holy City" with splendid expression.

Throughout the show well known society girls will be in attendance at the booth devoted to the sale of cut flowers for the benefit of the Day nursery. Friends of the cause have most generously pledged themselves to keep the booth supplied. Yesterday the flowers there were beautiful. Miss Daisy Anderson is in charge. In the afternoon those assisting were Misses May Howbert, Katherine Adams, Solly and De Coursey. In the evening those assisting were Misses Carolyn Lunt, Gwladys Crosby, Bessie Curtis.

Wild Flower Collection

In one of the tents there is a fine showing of the fast-growing famous Van Briggle pottery. There too is the collection of pressed Colorado and other flowers collected by Mrs S. B. Walker of Salida, Colo. The exhibit is made in cases 26 feet by 5 feet high and on tables all under glass. There are specimens of at least 200 of the beautiful flowers of Colorado, gathered from every quarter of the state.

Pikes Peak flowers are represented by two large pictures in gold mats. Flowers found above timber line and near the summit in one, while the companion piece is labeled from the vicinity of the Half Way house. Beside them there are glasses of flowers as fresh as when plucked at their mountain home a few hours previous. The state emblem, the delicate lavender and white columbine, stands pressing well and in Mrs. Walker's collection are many perfect specimens.

Another set of Colorado pressed flowers that is most notable is shown by Miss Anna M. Hertlein. In her exhibit are 50 varieties of pressed wild flowers gathered on the waysides of Colorado this season, the amateur work of an invalid from Indiana, who did the work as a pastime.

Among the hundreds who patronized the flower show yesterday were Mrs W. F. Slocum, Mrs H. G. Lunt, Miss Lunt, J. A. Hayes, Mrs M. T. Hatch, Mrs N. H. Patridge, Mrs W. C. Allen, Miss Allen, Mrs Kinney, Miss W. P. Kinney, Mrs W. W. Price, Miss W. B. Price, Mrs S. L. Solly, Miss Solly, Mrs W. F. Crosby, Miss Crosby, Miss Carlington, Miss Dorsey, Mrs B. F. D. Adams, Miss Brinley, Mrs C. N. Green, Mrs Robert Kerr and W. E. Evans.

The work of awarding the prizes is taking much time. The judges began their task yesterday morning and at midnight last night had only adjudged the sweet pea and a portion of the professional florists classes. The awards made up to that time follow:

MILITIA ELECTION ON SEPTEMBER 2

The election of officers in Company I of the local battalion of the Colorado National Guard will be held Wednesday evening, September 2.

Both a first and a second lieutenant will be chosen at the Company I election. The election is held primarily to fill the office of first lieutenant, which was made vacant several months ago by the resignation of Lieutenant Bloom. Joy. Second Lieutenant H. P. Barber will in all probability be advanced to the first lieutenancy by the company and a second lieutenant elected to succeed Lieutenant Barber from the list of three eligibles determined by the recent examination. Those eligible for the office are Sergeants Greenwood and Holman and Corporal Page. It is understood that Sergeant Greenwood's election is assured, as the others have declined to become candidates.

The election in Company D will be held for the purpose of choosing a second lieutenant to succeed J. G. Gregg, resigned. Private Neeley is the only present eligible for the office and his election is practically assured.

PENNANT CHASERS PLAYING

Millionaires Make Bad Beginning

Bracing Up For Game Today

[illegible] VETERAN

Brewers Won by Heavy Hitting.

Locals Made Errors Fast and Furious and Result Was 15 to 2.

A glance at the score and a little imagination will tell the story of yesterday's game at Boulevard park. The bunch that the Loam Blowers handed the Millionaires is almost too scandalous to appear in the public prints. Only threats from the walking delegates of the players unions caused the visitors to desist in their working overtime and quit business in the eighth inning. As it was the Creams went to bat 49 times and secured an average of three swats per player. In the eighth the artillerymen of the visitors decided that it was all up but the shouting and and from then on they shouted and did less hitting.

But the stick work of the visitors must not be given all the credit for the crushing defeat administered [illegible] Wealthy Boys. Rank errors that were rank in every instance but one and that one was Tom Fleming's muff of Miller's rather difficult fly to the left garden in the third played as important a part in the story of the battle as did the hitting.

Perfection Lacking

Everitt, Nill, Tibald and Congalton were the only locals to play a perfect game. McNeeley went in for Swacina in the seventh but had no chance. Everitt and Nill seemed to be the only men in the infield that were playing up to their usual form or trying to win the game. Doran made a bad throw. Villeman made a bad throw. Kling let a nice one go through him. Fleming muffed a fly and Swacina fell down and made two errors dropping flies from the winds of Lucia and Cockman. Bill evidently thought Swatz was soldiering on the bases and removed him in the seventh for not running faster to first. Two double plays were the only feature to relieve the monotony of errors.

This beautiful young game the first of the series died a swift and horrible death in the second round of its existence when the visitors amassed a total of five scores and from then on they amused themselves by kicking the corpse.

Kenna With the Dreamy Eyes

The final score would have been 15 to 0 instead of 15 to 2 had it not been for the gentle heart that beats in the bosom of one Kenna, he with the dreamy eyes who hurls the little chunk for Duffy. Kenna it will be remembered was pounded unmercifully when the Creams last stopped in this city and had to be removed in the fifth inning. But ah revenge is sweet, murmured Kenna and he proceeded to mystify the local batsmen as much as possible. Kenna pitched compassionately at times however and the locals are credited with ten hits. Part of those were of the doubtful variety, but the official scorer just to make things as pleasant as possible with all the humiliation, called some of the doubtful ones hits. Kenna in the second allowed Nill and Doran to secure singles which coupled with Nill's steal resulted in a tally.

Once again in the seventh the home team swatted the leather thrice and Villeman scored with a fied play. Congalton startled Duffy almost to death in the third when he sent a long one to right field good for three sacks. But Congalton never reached home. And so it was the locals played a listless game in the field while the Duffyites hit the ball.

George Villeman must not be criticised however. Villeman was given no support to start with and anyway he cannot be expected to win every game. Villeman seemed a trifle slow in assisting Everitt at first but on the whole played a fair game.

An Autopsy Explains.

An autopsy on the second inning mentioned above is all that is necessary to explain everything to the mourners. Gatins opened with a line drive past first but Miller went out Tibald to Everitt. Gatins going to second on the play. Lucia sent a nice one to Swacina which the latter promptly dropped and Gatins went to third Lucia reaching first alive. Kenna dropped one just along the right foul line and Lucia scored. McVicker traveled to the initial sack and arrived at his destination safe and sound through the extreme kindness of Kling and Kenna scored. Cockman rapped one to the outer territory and Stone and McVicker scored. An attempt was made to tag McVicker at third and Cockman went to second on the field play. He pilfered third bag but was caught at home in a double play when O'Neil went out Kling to Everitt.

In but two innings did the visitors fail to score in the eighth and ninth. There was no use bothering about them.

AROUND THE BASES

Will somebody please send down to Omaha for Rourke's Milwaukee hoodo.

Perhaps the experience of posing for the moving picture man was entirely too much for the locals.

It was noticed that a good fire was burning during the game in the club. Perhaps Bill started it for the players to warm up by.

They surely needed it for yesterday's game was about the worst ever the record breaker for the season.

Kling the new shortstop secured from Terre Haute does not seem to be making good. In the first place he is no hitter and does not try to connect. And on short he is entirely too slow for the local fans.

There have been many questions asked among the fans about Francks. If Francks is ready to return why is he not secured? While Francks is not the best [illegible] in the league he is surely an improvement over Kling.

This must not be taken for any attempt to knock Kling. He may be a good player. He [illegible] Three I league in fielding. But he has now had time to get acquainted and get into the game but he does not seem to [illegible].

[illegible] yesterday that [illegible] during the game. In the [illegible] Kling struck out with Nill on first [illegible] fall [illegible] stop the ball. Kling [illegible] and got there before the ball but according to the rules [illegible] anyway.

The taking of the moving pictures of the [illegible] the Empire was a success although it was not quite as realistic as it might have been as Brennan did not take part. Bat Masterson dressed in white ducks and one of the players' scouts made a good substitute however. The players entered into the scheme with characteristic vim as did Sheriff Gilbert and a lively mix-up furnished a good subject for the photographer and brought a good laugh from the crowd.

A TERRIBLE TROUBLE FOR THE GRIZZLIES

Lemke and Frisk Both Batted Out of Box.

But Peoria Also Made a Poor Showing With the Exception of Friend's Pitching.

Special to the Gazette.

Denver, Aug 19—The Grizzlies today were slaughtered by the Distillers. Two pitchers Lemke and Frisk were batted out of the box getting 18 hits during the game. The Denver men played like a lot of school boys and errors were frequent and costly. Outside of their tremendous hitting Peoria gave a poor exhibition of ball while wild throws and muffs were [illegible] the game. Not one player outside of Friend the pitcher of Peoria [illegible] even a [illegible] showing. The following is the showing.

FINE SHOWING ON BIG BANTA

Ore Body Has Been Opened in Two Places 40 Feet Apart---Mountain Boy Company Has Resumed Sinking Main Shaft.

Cripple Creek, Aug. 19.—Lessee Ellithorpe, operating on the South Big Banta claim on Battle mountain, has a splendid showing in a shallow shaft. Development has not been carried to a point sufficient to determine the exact proportions of the ore body, but the find has been opened in two places 40 feet apart.

The work of proving the ore shoot is being pushed as rapidly as possible. The two shafts are about 40 feet deep and ore is showing in both. Drifting is now in progress to make a connection and demonstrate whether the two ore bodies are identical.

Sinking will shortly be resumed to discover whether the ore is continuous. A couple of shipments have already been made from the new find and were settled for on the basis of better than two ounces to the ton. The workings are situated on the north slope of Battle mountain and but little work is in progress in the immediate vicinity.

The Mountain Boy company, operating on Raven hill, has secured additional working funds and has resumed sinking in the main shaft. It is the company's intention to continue to a depth of 400 feet, the shaft being a little over 300 feet deep.

A level was extended at the 150-foot point and considerable development work accomplished, but it was found that depth was needed, so sinking has been resumed. The territory of the company will be cut by the Ophelia tunnel at a depth of about 800 feet, when the breast of the big bore reaches that section of the camp. With this accomplished it will be able to do considerable development work at a depth of 800 feet, also lessening the cost of operations considerably, as the heavy machinery in commission at the surface will then be done away with.

POWERFUL PLANT FOR THE BLUE BIRD MINE

E. S. Johnson of this city, sole owner of the Blue Bird mine on the top of Battle mountain, has decided to immediately equip his property with an up-to-date steam plant good for from 1,500 to 2,000 feet. The cost will approximate $35,000. The plant will be the exact duplicate of the powerful equipment now in operation over the main shaft of the Vindicator mine, and with the addition of heavier boilers so that greater depth may be attained without materially changing the plant. The hoist will, in all probability, be good for 500 feet more depth than the Vindicator plant.

The Blue Bird is regarded as one of the best properties of the Cripple Creek district, and, being privately owned, does not figure in the newspaper reports with much frequency. Mr. Johnson has developed it to a depth of 1,350 feet, having opened a number of veins in ore all the way down. The principal ore deposits, however, occur below the 1,000-foot point, a significant development, and one that counts well for the future of the Cripple Creek district. Mr. Johnson opened, at 1,350 feet, the richest body of sylvanite ore ever discovered in the Cripple Creek district at like depth, and in many ways his development of this mine is a leader among the great mines of the Cripple Creek district for this fact. He has been employing an electric hoist, which, however, has reached its maximum capacity, so that a new and more powerful plant is an absolute necessity for the further development of the mine.

DAMON LESSEES OPEN VEIN OF BONANZA ORE

Lessee Fogleman and his associates have made what is probably the best surface strike ever reported from the Damon property on Bull hill. In trenching, they have opened a good vein of ore which has been developed to a depth of 20 feet with the result that a body of ore that is yielding from four to six ounces in gold on the average has been discovered. The lessees have started to sink on their find and are encouraged by seeing it improve with every additional foot of depth attained. The strike is regarded as an important one by the officers of the Damon company, who repose considerable confidence in the report of their lessees.

Fogleman and his associates are working the middle block of the Damon property and are sinking an entirely new shaft. For years exceedingly rich float has been characteristic of this neighborhood, but the source of it has never been discovered. The lessees took the lease with the intention of locating the source of the rich float and have apparently found it at last. A well-known mining man who visited the scene of the strike broke off a large piece of rock from the outcrop of the vein and obtained values of 88 ounces to the ton on a piece of rock half as large as a man's body. The officers of the Damon company think that the main ore body lies further along the vein and have advised the lessees to drift on the ore as soon as they obtain a fair depth in their shaft.

IMPORTANT STRIKE MADE ON THE W. H. P. PROPERTY

Seaver and others leasing on the W. H. P. claim of the United Gold Mines company has opened an important vein in his workings at 250 feet, that promises to be one of the best things ever developed on the property. At the depth mentioned, the lessee encountered an entirely new vein while driving to open what is commonly known as the east vein, and encountered the new find at a point 50 feet east of the shaft. The vein is 16 feet between walls at present and contains a good average grade of ore with some bunches of high grade mixed with the mass. The lessee, by careful sorting, will be able to make two grades, one of which will go to the smelters and the other to the mills.

The United Gold Mines has a number of leases in operation upon the north group of its claims, many of which are making a good showing; in fact, the work which is being done at this time under the leasing system is showing up better on this section of the company's holdings than that on any other portion of the ground.

COLORADO SPRINGS MINING STOCK EXCHANGE

A lively market with gains and losses was the order of the day yesterday. El Paso was strong and higher on the report from camp that the drainage tunnel and the mine had resumed operations with a full quota of men. It opened lively at 54 for 500 and held steady at that figure until 3,500 shares had been disposed of. C. K. & N. was stationary at 18, 1,000 going for five days. Acacia sold at 5⅝ for 2,000. Gold Dollar Con., at 4 for 2,000, and Isabella at 10⅛ for 2,000.

In the prospect department Creede & Cripple Creek opened the market selling at 6 for 1,000, followed by Easter Bell at $5 for 2,000. Mary Cashen was steady and strong at 2¼ for 3,000; Mary Nevin at 2⅜ for 1,000; New Haven sold at 2¼ for two transactions of 1,000 each and Old Gold closed this list at 2½ for 6,000.

In the miscellaneous department there were two transactions, being Detroit at $5 for 10,000 and Olive Branch at $4.50 for 3,000.

EASTERN MARKETS

REACTIONARY FORCES WERE PREPONDERANT

Declines in the Active List of New York Stocks Ran From 1 to 4 Points.

New York, Aug. 19.—The reactionary forces developed in yesterday's late stock market became preponderant in today's market and caused a sharp backset in prices.

It was evident that the underlying cause of the reaction was that the rebound had been too fast. So far as perceived, the outside causes which were advanced to account for the decline were the effect rather than the cause of it.

The speculative public at large was left to conjecture whether the powerful capitalists whose leadership they supposed they were following had sold out their stock and retired from the market or whether they had become dissatisfied with the rapidity of the advance, and the character of their following and had determined to countenance a reaction for the purpose of shaking off a weak and undesirable following of weak traders. The reaction did, in fact, uncover large numbers of stop loss orders and wiped out narrow margins of smaller speculators who have been attracted by the rapid rebound.

London was a seller of stocks on a large scale, evidently in the nature of profit-taking. As for the news developments that were in evidence, an important place must be given to the question raised whether the rejection of the Panama canal treaty is to be regarded as final. Yesterday's news of the rejection was made much of by the bulls as relieving the exchange market of the need for supplying means for remittances on the canal payment and leaving the treasury department free to use measures of relief for the money market. Much attention was devoted to a report that the legislators who are looked to to frame the legislation have been unable to agree and that any currency measure at this coming extra session of the regular session of congress is improbable.

There was a considerable covering movement at the beginning of the last hour, but the bears made a fresh onslaught and forced a weak closing at the lowest of the day. Declines in the active list ran from 1 to 4 points.

GOOD WEATHER CAUSED BREAK IN PRICE OF WHEAT

Chicago, Aug. 19.—There was a fairly steady opening in wheat, due to reports of continued wet weather in the United Kingdom, and September opened a shade lower to a shade higher at 80⅝@80⅞. Local longs showed a disposition early in the day to buy back some of the wheat they had sold out during the past few days and were encouraged by the action of cash houses, which bought freely of the September delivery. This demand resulted in a better tone during the first hour and September sold up to 81⅜, but later in the day reports of good weather in the northwest caused a break. September closed at 81⅛c, a gain of ⅝@¾.

There was some covering in corn early in the session on the firmness in wheat. September closed a shade higher at 51¼c.

Oats were independently strong throughout the entire day. September closed ½c higher at 34½c.

Provisions were without support, and continued selling by longs forced prices to a lower level. Trading was dull the entire day. Pork closed 15c lower, lard was 7½@10c lower and ribs were down 5 cents.

DAILY FLOW OF GAS 18,000,000 CUBIC FEET

J. M. Parker, president of the Colorado Securities company of this city and an officer of the Vulcan Oil and Gas company of Independence, Kan., is spending several days in the city, having just come from the oil fields. He said:

"Since I was last here, several weeks ago, nine new oil wells having a production of 50 to 250 barrels a day have come in. The majority of them are located near Bolton, Montgomery county, nine miles west of Independence. The fields are improving each day."

Mr. Parker then proceeded to tell of the greatest gas well in the United States which has recently been opened in the Kansas fields. He said: "Messrs. Reese and Hazlitt of Bowling Green, Ky., have just brought in a gas well that is flowing 18,000,000 cubic feet every 24 hours, which is 3,000,000 cubic feet in excess of the next largest well in these fields. Some idea of the power of such a well is indicated by the fact that when the gas was struck it forcibly ejected a string of drilling tools, weighing 2,600 pounds, throwing them 92 feet into the air, or 20 feet above the standard 72-foot derrick, and at the same time stripped a two and a half-inch steel cable used in drilling. The pressure is estimated at 800 pounds, and for 16 days the owners have tried unsuccessfully to check the flow. The escaping gas makes a deafening noise at the well, which is also distinctly heard five or six miles distant. It is estimated that the owners of this well are losing $1 a minute or $1,440 a day, and in the past 10 days have lost almost $16,000. At the rate the gas is selling in Colorado Springs," said Mr. Parker, "which is about $1 a thousand cubic feet, the owners of the well are losing $18,000 a day; but in Kansas gas is bringing only about five cents a thousand cubic feet."

Mr. Parker stated that the Standard Oil company has $1,500,000 worth of improvements in this field in the way of tanks and pipe lines, and is building tanks all over the district. The Vulcan Oil and Gas company is backed by local capitalists and is engaged at this time drilling three wells near Independence, one of which will soon be brought in.

STOP THAT COUGH.

When a cough, a tickling or an irritation in the throat makes you feel uncomfortable, take Ballard's Horehound Syrup. Don't wait until the disease has gone beyond control. Mr. and Mrs. J. A. Anderson, 354 West 5th St., Salt Lake City, Utah, writes: "We think Ballard's Horehound Syrup the best medicine for coughs and colds. We have used it for several years; it always gives immediate relief, is very pleasant and gives perfect satisfaction." 25c, 50c, $1.00. Sold by Hefley-Arcularius Drug Co.

POOR CIGARS SOLD BY DEALERS AS A NOTED BRAND

U. S. Internal Revenue Agents Make One Arrest and Expect More—Retailer Is Accused of Selling Imitation Cremos.

(From N. Y. American.)

The arrest of Henry Silberstone, a cigar dealer at No. 253 Bowery, charged with having refilled cigar boxes, marked the beginning of a war that will be waged by the United States Internal Revenue agents against dealers all over the city who have been engaged in similar practices. For some months past a large cigar concern has been greatly annoyed by complaints that inferior cigars were being sold under its label, and notified the revenue agents.

Silberstone is alleged to have bought several boxes of "Cremo" cigars, and after selling the genuine article at the regular price (five cents), refilled the boxes with a cheaper article, which he sold at eight for 25 cents, explaining to his customers that the only difference in the cigars was in the matter of the bands.

The cheap cigar was sold without a label, while the real "Cremos" have bands about them. In this manner Silberstone is alleged to have made a profit of considerably more than 100 per cent. He was arraigned before Commissioner Shields and held for examination before the Federal grand jury.

A cigar manufacturer interested in the case said:

"Substitution of cigars or refilling of boxes has been going on for some time. We have spent thousands of dollars advertising our particular brand of cigars, and it is the name of this cigar that has been illegally used.

"The bands were placed upon our goods to protect our customers against just such a fraud. The federal authorities expect a number more of arrests shortly. There are federal and state penalties."

THE HOT ONE—I don't see how you keep so cool and comfortable this blistering weather.

THE COOL ONE—Simplest thing in the world. I keep cool and clean inside, and that makes me feel cool and clean outside. I take a CASCARET Candy Cathartic every night before going to bed. It cleans and purifies the system, stops hot fermentation in the stomach and bowels, and makes excessive perspiration impossible. You know they work while you sleep, make you feel fine all day. 606

BANKRUPT'S PETITION FOR DISCHARGE.

In the matter of Emilia Hubner, bankrupt, in bankruptcy.

To the Honorable Moses Hallett, Judge of the District Court of the United States, for the District of Colorado.

Emilia Hubner of Colorado Springs, in the county of El Paso, and state of Colorado, in said district, respectfully represents that on the 15th day of November, 1902, last past, she was duly adjudged bankrupt under the acts of congress relating to bankruptcy; that she has duly surrendered all her property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the court touching her bankruptcy.

Wherefore she prays that she may be decreed by the court to have a full discharge from all debts provable against her estate under said bankrupt acts, except such debts as are excepted by law from such discharge.

Dated this 14th day of July, A. D. 1903.
Emilia Hubner, Bankrupt.

ORDER OF NOTICE THEREON.

District of Colorado, ss:

On this 18th day of August, A. D. 1903 on reading the foregoing petition, it is—

Ordered by the court, that a hearing be had upon the same on the 8th day of September, A. D. 1903, before Robert Kerr, referee, at his office at Colorado Springs in said district, at 10 o'clock in the forenoon; and that notice thereof be published in the Colorado Springs Gazette, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at the said time and place show cause, if any they have, why the prayer of the said petitioner should not be granted.

And it is further ordered by the court, that the referee shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

Witness the Honorable Moses Hallett, Judge of the said court, and the seal thereof, at the city and county of Denver in said district, on the 18th day of August, 1903. Charles W. Bishop,
(Seal of the Court) Clerk.

E. J. Ullrich, Secretary.

Colorado Springs, Colo., Aug. 17, 1903.

Notice is hereby given that the annual meeting of the stockholders of the Utah Ice and Cold Storage Company will be held at the office of the company, Conejos and Cucharas streets, Colorado Springs, Colorado, on Tuesday, September 1, 1903, at 4 o'clock p. m., for the election of the directors for the ensuing year and the transaction of such other business as may properly come before the meeting. The books for the transfer of stock will close at noon, August 29, 1903, and reopen two days after the final adjournment of said meeting.

E. J. Ullrich, Secretary.

BURLINGTON ROUTE TOURIST CAR SERVICE.

The Burlington announces that beginning the 18th inst., a daily tourist sleeper will be operated in both directions between Denver and Chicago on train No. 2 east bound leaving Denver 10 p. m., and train No. 3 west bound leaving Chicago 10:30 p. m. Cars have been definitely ordered into the service and are the best ever built by the Pullman company. A uniformed Pullman porter accompanies each car, and passengers are thus assured the same attention as if they occupied a berth in the standard sleeper, while the rates are much less. For instance, $1 over night, as against $2 in standard; $1.50 Denver to Omaha, as against $3.00 in standard; $2.50 Denver to Chicago, as against $6 in standard, etc. Each berth accommodates two persons if desired without any extra charge.

These cars are not expensively finished nor so fine to look at as a palace sleeper, but are just as good to ride in. They have clean linen, clean bedding, good ventilation and neat wash and toilet rooms, and are in every way just as comfortable as a palace sleeper. This new feature of travel will be appreciated by the Colorado people who have hitherto been obliged to depend upon the service offered by the through sleepers from California which has been more or less unsatisfactory owing to the uncertainty of making connections in Denver. Now one can go to Denver and be sure of a berth in a nice clean tourist sleeper, because the cars are made up at Denver. Write G. W. Valery, General Agent, Denver, for reservations.

THE LOUIS XVI COAT is adapted to the dressy tailored suits Of course there are a number of variations on this style In the main it is a long, full-skirted coat It is most frequently the fitted back with either the fitted or semi-fitted front though there are some models which show a semi fitted back

WALKING SUITS of mannish mixures are among the prominent styles CRAVENETTE COATS with the new capuchin hood are fast becoming popular, and will be worn extensively this fall and winter

There is but little change in the walking skirts from the past season The vogue of the 1830 styles proceeds with leaps and bounds So pronounced is it becoming that a few of the style leaders have elected to launch the instep-length skirt for the dancing gown this winter

He Declares That C. F. & I. Co. Will Remain a Distinctively Colorado Enterprise.

Special to the Gazette

Denver, Aug 19—There were no officers elected by the directors of the Colorado Fuel and Iron company today owing to the fact that a number of the men elected to the directorate were out of the city Little was done at the meeting beyond the selection of the board of directors

The men who will direct the destinies of the great corporation for the ensuing year are as follows John C Osgood Julian A Kebler George J Gould John D Rockefeller jr F J Hearne Fred T Gates, E H Harriman Edwin Holley Ben Nicoll John H McClement, James Hyde 1 W, Oglebay, E Parmalee Prentice

These directors will meet within the coming month in New York at which time will not only officers be elected but a final decision will be made on the question as to whether or not the general offices of the company will be removed to the works at Pueblo It is understood that a majority of these directors are in favor of closing the offices in Denver and consolidating the forces in Pueblo

At this meeting the plans for the expenditures in construction and other improvements will be absolutely decided upon It is understood that at this meeting of the directors the following will be selected as an executive board John C Osgood George J Gould F J Hearne John D Rockefeller jr F T Gates

The following statement was issued by John C Osgood upon the conclusion of the stockholders meeting this evening This statement is regarded as officially proclaiming the views of not only Mr Osgood but of Julian C Kebler and John D Rockefeller jr

I can state positively that it is not the desire of these interests to change the character of the corporation as a distinctively Colorado enterprise and that the business will be managed by residents of Colorado

There is no intention of making wholesale changes among the officers and employes of the company No changes will be made except when necessary to improve the service Every present employe will stand on his merits and it is the desire of the new interests to retain all of the old employes whom they find competent and satisfactory

The officers of the company who have resigned have done so voluntarily and not at the request of the new interests I feel that the people of Colorado are to be congratulated that this corporation in which they have taken so deep an interest and which is so closely allied to all of the business interests of the state is in the hands of men of such high standing in the business world and whose financial strength will enable them to build up the enterprise to the fullest limit of its possibilities

DEBOE'S TESTIMONY IN DEFENSE OF CALEB POWERS

Georgetown, Ky., Aug 19.—Former United States Senator William J Deboe took the witness stand for the defense in the Caleb Powers case this afternoon

He said he went from Washington to Kentucky on January 16, 1900, and stopped at Frankfort to see Governor Taylor He went on to Louisville and attended the Galt house meeting of leading Republicans, at which the contest was finally discussed Taylor never informed him of his purpose to have a mountain army of petitioners go to Frankfort, nor did he attend any meetings at Frankfort He denied vigorously ever having any conversation with the convict Henry Youtsey in which any reference was made to taking the life of William Goebel

He left Frankfort the night of the day before the shooting returning to Washington to talk to President McKinley about the Kentucky situation He had already asked the president and other prominent men of both parties at Washington he said to exert a moral influence on the Kentucky Democrats to abandon the contest Later he asked the president to send federal troops to Kentucky Governor Taylor having urged it in a telegram after the killing of Goebel He said that he saw nothing disorderly in the mountain crowd at Frankfort on January 25 1900

On cross examination by Commonwealth's Attorney Franklin Senator Deboe was asked if while en route to Washington on January 30 1900 the day of the shooting he did not say in response to a question of General Green Clay of Missouri as to whether President McKinley would interfere and send federal troops to Kentucky that he had been tried by the Kentucky Republicans and failed and that in any event Goebel would be seated as governor He responded that he had no recollection of meeting General Clay and certainly said nothing of that sort to him

NEW PROPOSITION ON PANAMA CANAL TREATY

Washington Aug 19—Dr Herran the Colombian charge has received no advices from Bogota since Monday last when he received from the Colombian minister for foreign affairs a cablegram dated August 13 announcing that the senate on the day previous had disapproved the Panama canal treaty and that on the day following the president would submit another proposition to the senate

What this new proposition is Dr Herran does not know He is of opinion however that the president has had a canal bill introduced empowering the president to negotiate and ratify without submission to congress a canal treaty with this government the general outline of which is contained in the bill now before the congress

Dr Herran says that this is only his unofficial interpretation of the news in the cablegram He is expecting another cablegram constantly

AN AMBASSADOR'S TRIALS

Trying Experience of the Hon Andrew D White in Germany

It has sometimes seemed to me, while doing duty at the German capital in those days as minister and at a more recent period as ambassador that I could not enter my office without meeting some vexatious case One day it was an American who having thought that patriotism required him in a crowded railway carriage loudly to denounce Germany the German people and the imperial government had passed the night in a guard house another day it was one who feeling called upon in a restaurant to proclaim very loudly and grossly his unfavorable opinion of the emperor was arrested on still another occasion it was one of our fellow citizens who having thought that he ought to be married in Berlin as easily as in New York had found himself entangled in a network of regulations prescriptions and prohibitions

Of this latter sort there were in my time several curious cases One morning a man came rushing into the legation in high excitement exclaiming Mr Minister I am in the worst fix that any decent man was ever in I want you to help me out of it and he then went on with a bitter tirade against everybody and everything in the German empire When his wrath had effervesced somewhat he stated his case as follows Last year while traveling through Germany I fell in love with a young German lady and after my return to America became engaged to her I have now come for my bride The wedding is fixed for next Thursday our steamer passages are taken a day or two later And I find that the authorities will not allow me to marry unless I present a multitude of papers such as I never dreamed of! Some of them will take months to get and some I can never get My intended bride is in distress her family evidently distrust me the wedding is postponed indefinitely and my business partner is calling me to come back as soon as possible I am asked for a baptismal certificate—a Taufschein Now so far as I know I was never baptised I am required to present a certificate showing the consent of my parents to my marriage—I a man thirty years old and in a large business of my own I am asked to give bonds for the payment of my debts in Germany I owe no such debts but I know no one who will give such a bond I am notified that the banns must be published a certain number of times before the wedding What kind of a country is this anyhow?"

We did the best we could In an interview with the minister of public worship I was able to secure a dispensation from the publishing of the banns then a bond was drawn up which I signed and thus settled the question regarding possible debts in Germany As to the baptismal certificate I ordered inscribed on the largest possible sheet of official paper the gentleman's affidavit that in the state of Ohio where he was born no Taufschein or baptismal certificate was required at the time of his birth and to this was affixed with plenty of wax the largest seal of the legation The form of the affidavit may be judged peculiar but it was thought best not to startle the authorities with the admission that the man had not been baptized at all They could easily believe that a state like Ohio, which some of them doubtless regarded as still in the backwoods and mainly tenanted by the aborigines might have omitted in days gone by to require a Taufschein but that an unbaptized Christian should offer himself to be married in Germany would perhaps have so paralyzed their powers of belief that permission for the marriage might never have been secured —(From Chapters From My Diplomatic Life" in the August Century

Ten Thousand Veterans of Civil War Were in Line in San Francisco.

San Francisco Aug. 19—Ten thousand survivors of the civil war passed in review today, marching to the martial tunes that inspired them to endeavor forty years ago Above the national colors borne by every marcher proudly floated torn and tattered battle flags These, with empty sleeves and limping gait, were eloquent reminders of the sorrows and glory of war Unlike the parade of yesterday, with the quick marching time of youth today's procession was the measured and steady tread of age As the different divisions marched along waves of sentiment passed over marchers and spectators There were many still vigorous in line but they waited for their weaker comrades and the column halted often on its two-mile course

It's my last march' said many a grizzled veteran as he started out 'It is now or never and I am going to try

One bent old man 70 years of age with the Wisconsin delegation could not be dissuaded His gait grew slower from block to block and he would have fallen had he not been held up by two of his companions Two civilians stepped from the spectators and led him out of line

The afternoon was devoted largely to receptions and reunions At the headquarters of the Woman's Relief Corps and the Ladies of the G A R the number of visitors was so great that passage through the rooms was almost impossible

A few survivors of the famous 'Iron Brigade of the Army of the Potomac met in Pioneer hall

In the evening thousands attended a vocal and instrumental concert at Mechanics pavilion General Nelson A Miles was the guest of the Spanish-American war veterans and the Woman's Relief Corps gave a reception to Commander-in-Chief Stewart

Reunions were also held by the Ladies of the G A R A camp fire at the armory of the Spanish-American war veterans closed the events of the night

SOCIALIST USED WORD THAT HE DIDN'T KNOW WAS LOADED

Pueblo, Colo, Aug 19—Three Socialist orators were arrested in Bessemer, a suburb of Pueblo at 10 o clock tonight and a charge of disturbing the peace was lodged against the men They gave their names as William Knight, Philip Veal and John Vaughan A disturbing element in the crowd that was listening to the speakers caused the police to order the speakers to cease talking Upon their refusal the men were arrested All furnished securities to appear at police court tomorrow morning

According to the story of witnesses one of the speakers was in Bessemer last Wednesday night and during the course of his address stated that every man who voted the Democratic or Republican tickets was a scab ' The speaker was informed that if he ever returned to Bessemer he would be harshly dealt with During the speeches tonight disorder prevailed to such an extent that the police arrested all the speakers present

ANOTHER BIG FEATHER IN PUEBLO'S CAP

Pueblo, Colo, Aug 19—Advices by private wire to prominent citizens of Pueblo from Denver today confirm the announcement made in morning papers that the general offices of the Colorado Fuel and Iron company will be ordered moved to Pueblo at the first directors meeting held under the new ownership of the company A building to cost in the neighborhood of $200 000 will be erected near the steel works the site for which has been already chosen It is also understood that the Gould Rockefeller combination will remove the Burnham shops to Pueblo, and will build shops to be used jointly by the Missouri Pacific and Rio Grande roads

POSTOFFICE BEHIND TIMES

R H Dane Criticises the Lack of a Parcels Post

We have the worst postal service of any civilized country in the world There are improvements adopted in England France Germany and Italy twenty and thirty years ago which we have not yet adopted at all or only partially or imperfectly wrote R H Dana in The Appointment and Tenure of Postmasters and James L Cowles quotes this as a preface to his article in the Outlook on what the post office might do He says that a dress suit case was presented at the New York postoffice for mailing to New Haven and after considerable parley it was accepted the postage being $3 68 A few days later Mr Cowles received a letter from Assistant Postmaster General Wynne stating that the postal service is intended for the interchange of correspondence and not to convey freight or express matter

Since 1887 says Mr Cowles the postal movement has been practically at a standstill forward two steps back

As long ago as 1880 Dr Stephen the great postmaster general of Germany called round him the representatives of the leading nations of Europe and erected the International parcel post union Today this service covers thirty-five of the countries of the world letter post union and more than half the civilized world but not the United States Under it eleven pound parcels go by from Germany to Italy for ... to Egypt for 40 cents ... virtue of our one parcel post convention with a European power ... the United States for 58 cents plus ... surtax of ... cents—in all 63 cents

Switzerland takes eleven-pound parcels from any postoffice in the republic to the most distant chalet on the farthest Swiss Alps for ... cents this charge also covering an indemnity of $3 for delay of over twenty-four hours beyond the proper delivery and insurance against loss or damage up to $3 a kilogram

The Swiss post takes a forty-four pound packet from the postoffice to the address for 33 cents ... there is no limit to the weight of the Swiss parcel and its only limit in bulk seems to be the size of a railroad car ... two pictures in any line than
